The lowest known number for the infamous 100 Trillion. It is after extensive research that we have confirmed that this is the lowest number of the type known. To put a price on a piece this incredible is a difficult task, however to put its rarity into perspective, we have attached the link for the asking price of ZA0000511, \$12.500 on ebay! This piece from the absolute first bundle to go to print, is a treasure to behold.
