She was warmly welcomed by her family and the Ptolemy dynasty. Shortly before her death, the Egyptian people and dynasty ga ve her divinity. The Arsinoe cult originated in the temples. Subsequently, coins in the na me of Arsinoe were minted by dynastic Egyptian rule. This coin we have is probably an Alexandria edition. The absence of monograms or inscriptions gives us no information a bout exactly where the coin is minted. We were able to find an example in the catalogs of the British Museum. In that coin the mint was published as unknown. **1**
