Beste liefhebber,

Welkom bij de novemberveiling van Heritage Auctions Europe! Met 8300 kavels is dit weer een grote veiling geworden, waaraan met veel plezier en deskundigheid gewerkt is. Vanaf deze plaats dank aan alle inzenders die dit mogelijk hebben gemaakt, in Nederland en buitenland.

Ook deze keer is het weer een 6-daagse veiling, door het grote aantal kavels. Zoals u al jaren gewend bent wordt er weer 'gehamerd' in ons kantoor aan de Energieweg 7 te IJsselstein, van maandag 14 t/m zaterdag 19 november. De kijkdagen beginnen vrijdag 4 november. Wij adviseren u zoals altijd om ruimschoots gebruik te maken van deze dagen, bekijk alles uitgebreid om niets te missen! Uiteraard staan alle lots (impressiefoto's) en losse nummers op onze website www.ha-europe.com. Tevens kunt u alle LOSSE nummers ook TIJDENS de veiling nog bekijken, tot ca. 100 nummers voor afslag. Voor de indeling van de veiling en de kijkdagen kijkt u in het overzicht op de volgende pagina's.

Wat valt naast alle moois deze keer op? Veel interessante munten Nederland en wereld waaronder een schitterende kleine collectie Ottomaanse gouden munten wb. diverse topkwaliteiten, een dubbele gouden Willem 1850 (proefstuk), div. Karolingische deniers etc. Tevens een gouden gegraveerde ovale penning op het overlijden te Batavia van Henricus Zwaardcroon, Gouverneur-generaal van Nederlands Indië 1718-1725, erg zeldzaam, 2e bekende exemplaar (buiten de Nationale Collectie). De bankbiljetten zijn indrukwekkend met veel en mooi Nederland en wereld, keus genoeg. Ook noemen we deel III van de uitgebreide collectie rekenpenningen van Frans Peters. Kortom: in deze catalogus diverse verspreide pareltjes!

Graag wijzen we u ook op de nalatenschap van wijlen dhr. Leo Hoekendijk, te vinden in deze veiling. Leo was een gepassioneerde verzamelaar en handelaar die jarenlang aanwezig was op vele numismatische beurzen. Hij was gespecialiseerd in de munten van Portugal, waar hij uiteindelijk ook is gaan wonen en overleden.

Overtuigd als hij was van MPO/Heritage Auctions Europe was het altijd al zijn bedoeling om zijn collectie daar te laten veilen. We zijn er van overtuigd dat u in deze catalogus iets zult vinden uit zijn nalatenschap of anderszins!

Tot slot: zoals altijd kunt u weer op alle kavels live meebieden via internet. Uw aanwezigheid tijdens de veilingdagen wordt uiteraard zeer gewaardeerd. Mocht u echter verhinderd zijn en kunt u niet via ons live computersysteem meebieden, dan voeren wij uw schriftelijke biedingen, zoals u dat van ons gewend bent, discreet en met zorg uit.

Wellicht tot ziens in IJsselstein en alvast heel veel succes op de veiling!

Met vriendelijke en numismatische groet,
Jacco Scheper en Huib Pelzer

Dear collector,

Welcome to the November auction of Heritage Auctions Europe! With 8,300 lots, this has again become a great auction, which was worked on with great pleasure and expertise. From this place thanks to all contributors who made this possible, in the Netherlands and internationally.

This time it is again a 6-day auction, due to the large number of lots, to be "hammered" in our office at the Energieweg 7 in IJsselstein (Netherlands), from Monday, November 14 to Saturday, November 19. The viewing days start on Friday, November 4. Of course, all larger lots (impression photos) and single lots are to be found on our website www.ha-europe.com. You can also view all SINGLE lots during the auction, up to approx. 100 numbers before the auction. For details about the auction and the viewing days please have a look at the overview on the following pages.

As always you can participate in bidding for all lots live on the Internet. Your presence during the auction days is of course greatly appreciated. However, if you are unable to attend and cannot bid via our live computer system, we will handle your written bids discreetly and with care, as you have come to expect from us.

Hope to see you in IJsselstein and good luck at the auction!

With kind and numismatic regards,
Jacco Scheper and Huib Pelzer

Heritage Auctions Europe Online

Online auction

Follow the auction at www.ha-europe.com. Here you can not only place your bids in advance, but also bid live during the auction.

In order to make full use of www.ha-europe.com you must register once. Processing your registration can take up to 1 business day, so do not wait until the last minute.

Absentee bidding

Instead of absentee bids, please use www.ha-europe.com to place your bids in advance. The system is fast and flawless and it has now been proven that the number of errors is lower than with the known handwritten bidlists. Another advantage is that you get instant feedback and the possibility to raise your bids if necessary. In addition, your bids are processed immediately. This can give an advantage up to 48 hours. Important if equal bids are placed!

Live bidding

We offer all of our lots to be not only auctioned at our office, but simultaneously online. To bid live, you must sign up for the specific auction. In order to sign up for an auction, log in at www.ha-europe.com and then click on the blue 'Register Live'-button at the particular auction. An orange 'Register'-button appears on the next page. Processing your request can take up to 1 business day, so do not wait until the last minute. The 'Bid Live'-button will turn orange shortly prior to the auction.

Extract of the conditions of sale

The auction sale occurs by upward bidding in euro. To the hammer price a buyer's premium will be added of 23% and 2 euro for every bought lot. Purchases via the livebid system have an alternate buyer's premium of 26% and 2 euro for every bought lot.

Lots are assigned to the highest bidder. In case of two even bids the concerning lot will be assigned to the first bidder. Bidders can submit postal bids at www.ha-europe.com. Please notice: no bids below the starting price will be accepted!

The auction sale takes place with increasing steps as follows: up to 40 euro with 2 or 3 euro, from 40 to 100 euro with 5 euro, from 100 to 300 euro with 10 euro, from 300 to 500 euro with 20 euro, and from 500 to 1000 with 50 euro and above 1000 euro with 100 euro.

The auctioneer has the right to deviate from these amounts. Starting prices in the catalogue described as 'bod' have a minimum of 5 euro. Bids under the starting price are not accepted.

During and after the auction lots bought can be taken along by the purchaser. This is possible after direct payment (cash or bank) or after permission of the auctioneer to wire the amount within an agreed period. Payment with creditcard is also possible, the auctioneer will charge 5% extra to the invoice due to bankcosts. Cheques are not accepted. Every bidder is considered to buy for him- or herself and can never be entitled 'in-betweeners' without responsibility.

Purchases will not be shipped before the invoice is paid in full. Heritage Auctions Europe (HAE) takes no responsibilities for bank or wire transfer surcharges (which some banks charge).

A minimum of 30 euro will be charged for shipping costs. Heritage Auctions Europe is free to raise these costs if the actual shipping costs are higher than invoiced. We attempt to ship as quickly as possible, but operate a queue system with purchases shipped in order of payment. Buyers will receive a tracking number once the package is ready to be shipped out.

We reserve the right to decline to ship lots deemed too fragile, heavy or large for postal services. Every effort is made to pack securely but we are not a professional shipping company. Our services are used at the buyers risk and we cannot be held responsible for damage in transit.

Ownership of the lots remains with the seller until payment has been done in full. Buyer's risk is valid from the moment of knock-down.

All lots are sold as viewed. Authenticity of every single lot (or lots with no more than 2 pieces) is guaranteed.

All disputes during or after the auction are decided by a present supervisor. All parties are subject to his/her pronouncement. Any disputes followed by legal actions will be handled according to the conditions as deposited at the Court of Law in Utrecht under no. 383/1999 (15/11/1999). Only the Dutch text of conditions of sale is in force.

According to Dutch taxlaw your VAT-number will NOT exclude VAT. All prices are reserve prices.

Onthul de ware schoonheid *van uw munten*

Verzamelmunten kunnen beschadigd raken en het uiterlijk kan veranderen als ze niet goed worden bewaard en verpakt. Ook kunnen ze beschadigd raken door het milieu en de omgeving, verkeerd gebruik en veranderingen in de natuur. Vervuiling op oppervlakken zoals PVC en andere resten, vuil, aanslag, vlekken en afzetting kunnen het uiterlijk minder mooi maken en kunnen munten zelfs permanent beschadigen.

NCS heeft een professionele aanpak van numismatische conservatie ontwikkeld en kan deze schadelijke deeltjes verwijderen, waardoor het uiterlijk van een munt aanzienlijk kan worden verbeterd.

NCS, dat door het Smithsonian Instituut wordt gezien als een autoriteit op het gebied van conservering, heeft de expertise en ervaring om het oorspronkelijke uiterlijk van uw munt terug te brengen en de ware schoonheid ervan te onthullen.

Wat kan professionele conservatie door NCS doen voor mijn munten?

Alle soorten munten zijn onderhevig aan oppervlakkige vervuiling en negatieve reacties op de omgeving. In veel gevallen worden munten bewaard of verkocht in zachte plastic mapjes of muntverpakkingen die polyvinylchloride (PVC) bevatten, chemicaliën die langzaam inwerken op de oppervlakte van een munt. PVC en andere resten leiden uiteindelijk tot permanente schade.

Door bepaalde problemen komen munten niet langer in aanmerking voor beoordeling door Numismatic Guaranty Corporation (NGC), een onafhankelijk partner van NCS, als ze niet eerst professioneel worden geconserveerd. Na conservatie door NCS kunnen munten aan NGC worden overgedragen voor certificering. Hierna worden ze, afhankelijk van de staat van het oppervlak, numeriek op kwaliteit ingedeeld of door NGC Details op kwaliteit ingedeeld.

Hieronder volgen enkele voorbeelden van professionele conservatie door NCS.

Advice:

Take a look on our website www.ha-europe.com. You will find the photos of all lots, including those not published in our catalogue.

Another advice:

Enter your postal bids at www.ha-europe.com. This prevents errors and lost bid slips. Your bids are also processed faster, which provides a time advantage of up to 48 hours. This is important when equal bids are placed. You will also receive immediate feedback and the option to increase your bid if necessary.

Heritage Auctions is the largest numismatic auction house in the world with over 1,500,000 members/bidders. No other auction house even comes close! Consigning to our auctions is possible via HAE in IJsselstein, inquire about the possibilities. Call +31(0)30-6063944 or info@ha-europe.com

Owing to the shortage of coins of small denomination, which had led to great disturbances and troubles, and in order to accommodate the indigenous population, the Batavian Government by a Res. of Nov. 9, 1658, decided to prepare at Batavia copper "Tangen" of the same shape as those on the coast of India, Ceylon, Coromandel, Bengal and Aracan, having at either end a small mark to prevent them from being shortened, and to declare them current at the rate of an "Oortje" (2 Doits). In due course the mintmaster for the production of these emergency pieces, found the copper at hand so hard that it was impracticable for the purpose. Consequently, by Res. dated May 28, 1660, directions were given that these "Tangs" were to be made of pewter instead of copper - VF - Exceptionally rare issue	750

These coins were struck in Batavia, made of lead and tin in approximately equal quantity. They were put into circulation on 14 February 1744, to the value of ¼ doit or 1/16 stiver and declared current in Batavia and on Java. Brief historical note: A proposal for the introduction of pitjes on Java and Madura was discussed on 3 December 1743 in Batavia. The initial proposal was to strike red-copper pitjes, but from the resolution of High Government of 16 January 1744 we learn, that the pitjes were made of lead and tin, in equal portions, as the production in copper proved to be too expensive and time consuming. Netcher - van der Chijs (1863), extensively discussed the proposal of 3 December (p.62-64) but concluded: "It doesn't appear to us that the matter got continued: we even doubt it, because from the resolution of 22 December 1750 it appears that two years prior to it, the Indian Government had requested the Gentlemen XVII for the supply of half doits, which was followed up." The archival truth, however, turned out to be different, as by the resolution of 16 January 1744 they were put into circulation on 14 February 1744 and "Declared current, here in Batavia as well as on Java, of pierced pitjes, made of lead and tin, with on one side the mark of the East India Company and on the other side the date 1744." The pitjes, with a value of ¼ doit or 1/16 of a stiver, were made in the trade/craft centre of Batavia. The production was farmed out by auction to the Shahbandars. The Shahbandar (Persian, lit. Pitje 1744 geslagen te Batavia (Passon 18.1 R4 / Scho. - / N.-VdCh. - / Millies -) - 1.28 gram gram – VZ VOC-monogram / AO 1744 / KZ blank – PR / RRRR / mooi exemplaar en uiterst zeldzaam - Deze munten werden geslagen te Batavia en vervaardigd uit lood en tin in ongeveer gelijke hoeveelheden. Ingevolge resolutie van 14 februari gangbaar verklaart in Batavia en op Java - uiterst zeldzaam.

Beknopte historische info:

Op 3 december 1743 werd te Batavia van gedachte gewisseld over de invoering van pitjes op Java en Madura. Aanvankelijk ging men uit van het slaan van rood-koperen pitjes, maar uit de resolutie van de Hooge Regering van 16 Januari 1744 blijkt, dat de "pitjens" toch van lood en tin ("van ieder ten naaste by evenveel") waren aangemaakt, omdat men "het koper zoo dun en klein hier niet bewerken konde zonder een oneyndig arbeidsloon en tyd daaraan tespenderen".

Netcher - van der Chijs (1863) besteden ruim aandacht aan het voornemen van 3 december 1743 (p.62-64) maar concluderen: "Het is ons echter niet gebleken, dat deze zaak voortgang heeft gehad: wij betwijfelen dat zelfs, want uit de resolutie van 22 December 1750 blijkt, dat twee jaren te voren de Indische Regering aan de Heeren XVII had verzocht halve duiten te laten munten, waaraan gevolg was gegeven."

Niets is echter minder waar, namelijk ingevolge de resolutie van 16 januari 1744 werden ze op 14 Februari 1744 gangbaar verklaard. "Gangbaar verklaring. Zoo hier [Batavia] als op Java, van doorboorde pitjes, vervaardigd van lood en tin en voorzien van de eene zijde met het merk der O. I. Compagnie en aan de andere zijde met het jaartal 1744".

De pitjes ter waarde van een ¼ duit of 1/16 stuiver werden in opdracht van de VOC in het ambachtskwartier te Batavia vervaardigd. De vervaardiging van de 'loode pitjes' werd bij veiling verpacht aan de shahbandars. De shahbandar (Perzisch, letterlijk 'havenmeester'), was in de havenplaatsen een belangrijke, zo niet dé belangrijkste functie en op Java onder meer belast met het innen van de tolgelden van alle inkomende en uitgaande goederen.

Lokale muntslag

Borneo, Gongsu lead-tin local cash coin (6.86 gram), "da gang gong si", mining gongsu. In 1776 the 14 mining gongsus around Montrado, formed a federation known as He-shun.

Around 1808 the He-shun federation originally consisting of 14 gongsus had dwindled to only seven members. Early in 1819 a quarrel arose between Da-gang and San-tiao-gou about the presidency of the He-shun federation, resulting in a withdrawal of the latter with its allies Shi-wu-fen and Tai-he. They settled north of the Selakau river, San-tiao-gou with its capital at Seminis and Shi-wu-fen at Loemar. The He-shun federation consisted thus of four gongsus.

☐ 419	After the detection of a conspiracy of Keng-wei and Xin-wu together with San-tiao-gou against Da-gang, these He-shun gongsus were dissolved by Da-gang on 8 October 1837, leaving Da-gang now synonymous with He-shun in absolute power in Montrado until 1854. Some members of the Keng-wei and Xin-wu gongsus migrated eastwards to Tajan and northwards to Sarawak, respectively - VF+ / rare	100

Advice:

Take a look on our website www.ha-europe.com. You will find the photos of all lots, including those not published in our catalogue.

Another advice:

Enter your postal bids at www.ha-europe.com. This prevents errors and lost bid slips. Your bids are also processed faster, which provides a time advantage of up to 48 hours. This is important when equal bids are placed. You will also receive immediate feedback and the option to increase your bid if necessary.

Heritage Auctions Europe:

- Customer friendly
- Personal advice by our top experts
- On-time payout
- Professional, reliable and knowledgeable
- Best conditions and highest prices realised

1728 – ‘Gegraveerde gouden plaquette op het overlijden te Batavia van Henricus Zwaardcroon (1667-1728), Gouverneur-generaal van Nederlands Indië 1718-1725’ (De Dompierre de Chaupepié 2450, Bemolt 819, Van der Meer Mohr - De Beeldenaar 2020-12 39-54) – VZ Wapenschild (zwaard met gebroken kling) onder een aanzierende toernooihelm met lambrekijns en helmteken hand met lauwerkrans / KZ Vijftien regels tekst: Ter Gedachtenisse Van Wylen Zyn Edelheid HENRIC ZWAARDECROON Oud Gouverneur Generaal Van NEDERLANDS INDIA Gebooren binnen ROTTERDAM den 26 January 1667 overleden tot BATAVIA den 12 en begraven den 16 augusti 1728. – goud, ovaal met gemonteerde kettingrand, de plaat alleen 56x69, met rand 65x72 mm, 55,54 gram, aan kort zilveren kettinkje (ca. 30 mm, waarschijnlijk later toegevoegd) - prachtig – uiterst zeldzaam (een tweede exemplaar in de NNC PE-04468)

NB Henricus Zwaardcroon trad in 1684 in dienst van de VOC als klerk van de nieuw aangestelde Gouverneur-generaal Van Reede en voer in diens gevolg mee naar Azië. Na een gevarieerde loopbaan bij de Compagnie werd hij in 1718 zelf tot Gouverneur-generaal benoemd. Reeds zeven jaar later, in 1725, kreeg hij op eigen verzoek ontslag ‘met reputasie’. Hij trok zich terug op zijn landgoed Kadoeang bij Batavia waar hij op 12 augustus 1728 overleed en vier dagen later ter aarde werd besteld op de begraafplaats van de Portugese Buitenkerk te Batavia, waar zijn graf nog aanwezig is. De VOC had in Amsterdam een grote gouden bokaal voor Zwaardcroon laten maken (Rijksmuseum NG-NM-588) ter beloning van zijn diensten, speciaal voor de bevordering van de koffie- en zijdeteelt op Java (hij introduceerde er de koffieplant en de zijderups), maar deze zou door zijn overlijden niet meer worden uitgereikt. De penning, waarschijnlijk van lokale makelij, heeft (met het zilveren kettinkje!) een soortelijk gewicht dat wijst op een gehalte van ongeveer 17 karaat. Bij de meeste van dit soort penningen is niet bekend wie opdracht tot de vervaardiging gaf en wie ze ontving. Een soortgelijke ovale gouden penning (61x94 mm 53,38 gram) werd in 1632 aan Gouverneur Speck geschonken door de Chinese inwoners van Batavia. (voor boek zie volgend lot)

1728 – ‘Engraved gold plaque on the death in Batavia of Henricus Zwaardcroon (1667-1728), Governor-General of the Dutch East Indies 1718-1725’ (De Dompierre de Chaupepié 2450, Bemolt 819, Van der Meer Mohr - De Beeldenaar 2020- 12 39-54) – Obv. Coat of arms (sword with broken blade) under a facing tournament helmet with lambrequin and helmet sign hand with laurel wreath / Rev. Fifteen lines of text: “Ter Gedachtenisse Van Wylen Zyn Edelheid HENRIC ZWAARDECROON Oud Gouverneur Generaal Van NEDERLANDS INDIA Gebooren binnen ROTTERDAM den 26 January 1667 overleden tot BATAVIA den 12 en begraven den 16 augusti 1728.” – gold, oval with mounted chainring, the plaque 56x69, with chain 65x72 mm, 55.54 grams, on a short silver chain (approx. 30 mm, probably added later) – XF - extremely rare (a second example in the NNC PE-04468)

NB Henricus Zwaardcroon entered the service of the VOC in 1684 as a clerk to the newly appointed Governor-General Van Reede and subsequently sailed to Asia. After a varied career with the Company, he was himself appointed Governor-General in 1718. Already seven years later, in 1725, he was dismissed at his own request ‘with reputation’. He retired to his estate Kadoeang near Batavia where he died on 12 August 1728 and was buried four days later in the cemetery of the Portuguese Buitenkerk in Batavia, where his grave is still present. The VOC had a large gold goblet made for Zwaardcroon in Amsterdam (Rijksmuseum NG-NM-588) as a reward for his services, especially for the promotion of coffee and silk-culture on Java (he introduced the coffee plant and the silk-worm), but this would no longer be awarded due to his death. The medal, probably made locally, has a specific weight (with the silver chain!) indicating a gold content of approximately 17 carats. For most of these tokens it is not known who ordered and who received them. A similar oval gold medal (61x94 mm 53.38 grams) was donated to Gouverneur Speck in 1632 by the Chinese inhabitants of Batavia. (for literature see next lot).

Gehalveerde Nederlandse Zilveren Dukaat Utrecht 17(69) met instempeling 'Gekroond wapenschild van de Generaliteit' - 40x19 mm 13,15 gram - Ingestempelde helft bij de muntbusopening apart gehouden voor eventuele contra-expertise van het essai – Object van historisch belang, ongepubliceerd, van de grootste zeldzaamheid.
 = Halved Dutch Silver Ducat Utrecht 17(69) countermarked on the obverse 'Crowned coat of arms of the Generality' - 40x19 mm 13.15 grams - Stamped half coin kept aside at the 'Muntbusopening' for possible counter-expertise of the essay - Object of historical importance, unpublished, of the highest rarity.

 2934	<p>Tijdens de 'Muntbusopening', waarbij onder andere de kwaliteit van de muntstukken wordt gecontroleerd die een muntmeester in een zekere periode heeft opgeleverd, wordt van elke soort afgeleverde munten in de muntbus een bepaald aantal afgezonderd voor de bepaling van het metaalgehalte. Deze muntstukken worden gehalveerd. De ene helft wordt gebruikt voor het essai, waarbij de helften gesmolten worden en dus verloren zullen gaan; de andere helft wordt door de Essaieur Generaal van een instempeling voorzien en weggeborgen voor de eventuele contraexpertise ingeval er een geschil over de uitkomst van het essai ontstaat. De instempeling moet voorkomen dat deze halve munten worden omgewisseld met andere. Nergens wordt ooit vermeld wat voor instempeling hiervoor gebruikt werd; dit werd blijkbaar als geheim gezien. Het is uiterst waarschijnlijk dat deze twee halve Zilveren Dukaten dit geheim eindelijk onthullen. Het College van Raden en Generaalmeesteren van de Munt, dat verantwoordelijk was voor de muntbusopeningen, handelde immers namens de Staten Generaal en de keuze van het Generaliteitswapen is dus niet meer dan logisch. De twee exemplaren die in deze veiling voorkomen tonen beide geen sporen van circulatie. Het zijn uiteraard niet twee helften van dezelfde munt, maar uit vergelijking van de 'overlappende' gedeelten blijkt wel dat zij met dezelfde stempels geslagen zijn. Deze twee halve munten voegen een klein maar belangrijk feit toe aan onze monetaire geschiedenis.</p> <p>= During the 'Muntbusopening', which includes checking the quality of the coins that a Mint Master has delivered over a certain period, a certain number of each type of coins delivered in the 'Muntbus' is segregated for the determination of the metal content. These coins are halved. One half is used for the essay, where the halves are melted and thus lost; the other half is stamped by the Essaieur General and stored away for possible counter-expertise in the event of a dispute about the outcome of the essay. The stamping must prevent these half coins from being exchanged for others. Nowhere is it ever mentioned what kind of countermark was used; this was apparently seen as a secret. It is highly probable that these two half Silver Ducats finally reveal this secret. After all, the Board of Councils and Masters General of the Mint, which was responsible for the Muntbusopening, acted on behalf of the Staten General and the choice of the Generality coat of arms is therefore only logical. The two copies present in this auction both show no traces of circulation. They are of course not two halves of the same coin, but a comparison of the 'overlapping' parts shows that they were struck with the same dies. These two half coins add a small but important fact to our monetary history.</p>	1000

Ancient coins (3100 - 3357) with livebid 

11.00 hours CEST

Currency part 1 (3400 - 4553) with livebid 

Please make sure to submit your absentee bids in time. See page 7 for the deadlines.

Advice:

Take a look on our website www.ha-europe.com. You will find the photos of all lots, including those not published in our catalogue.

Another advice:

Enter your absentee bids at www.ha-europe.com. This prevents errors and lost bid slips. Your bids are also processed faster, which provides a time advantage of up to 48 hours. This is important when equal bids are placed. You will also receive immediate feedback and the option to increase your bid if necessary.

**Several lots auctioned at Heritage Auctions Europe have broken world records.

Fourth session, Thursday November 17, 2022

09.30 hours CEST

Currency part 2 (4554-5866) with livebid 

Please make sure to submit your absentee bids in time. See page 7 for the deadlines.

Advice:

Take a look on our website www.ha-europe.com. You will find the photos of all lots, including those not published in our catalogue.

Another advice:

Enter your absentee bids at www.ha-europe.com. This prevents errors and lost bid slips. Your bids are also processed faster, which provides a time advantage of up to 48 hours. This is important when equal bids are placed. You will also receive immediate feedback and the option to increase your bid if necessary.

**Be in time with your bids! Use the online bidding system on our website www.ha-europe.com, send them in by email to info@ha-europe.com, or hand them to us in person.
Best of luck!**

Kweichow

6209 10 Cents Yr.20 (1931) - Antimony (KM429, Hsu1, Zeno285555) - Obv: Chinese legend Chung Hua Min Kuo Nien / Rev: Sun within beaded circle - 5.10 g. - NGC VF Details, cleaned (5786156-005), rare coin, the only Chinese coin struck in antimony, maybe more attractive looking than the grade suggests, Guizhou (Kweichow) had a great shortage of copper coins and had to rely on Szechuan for coin supplies during the early Republican era. With the intention to reduce Szechuan's influence, the Kweichow government planned to cast its own copper coins but failed; because Kweichow was rich in lead and antimony, but had little copper. The Kweichow government was, therefore, forced to revise its plan and to mint antimony coins instead. According to the revised plan, the mintage was 500 thousand, each one had a face value of 10 Wen, and the issuing year was the 20th Yr. of the Republic of China (1931). The plan, however, was not executed smoothly. Firstly, the Arsenal of Kueiyang, which was responsible for minting the antimony coins, didn't have enough capacity in meeting the time schedule and output as demanded. The antimony coins were delayed in issuing for 2 years, they were not put into circulation until in the 22nd Yr. of the Republic of China (1933), even though their surfaces were all inscribed with the 20th Yr.. Secondly, immediately after the antimony coins were put into circulation in the markets, the Kweichow government came to know that they were not welcomed by the people, as the antimony was too soft and easily worn. Due to it, the market value of the antimony coins had been depreciated to one quarter of its face value. As a result, the Kweichow government has to give-up its plan. Those antimony coins now are renowned not just for what it was made of (it seems the only coin in the world made of antimony), but also for the scarcity of surviving specimens, particularly those in good condition	800

Arakan - Candras of Arakan (c. AD349-579)	
Yajnacandra, c. 455-462	
6715	1000
AR unit of 64 rattis (7.61 g.) (MSEA 73; MBLA28 (this specimen); type not represented in Mahlo; ZENO296404) - Obv: Bull seated left, with garland, above Yajnacandra / Rev: Srivatsa, flanked by stylized leaf tendrils, moon (crescent) & sun above - a.XF, extremely rare, from the few specimen known, from this coin the correct name could be deciphered, Note: Johnston (1943) originally proposed reading "Yajnacandra" and San Tha Aung (1979, p. 2c) corrected this to "Yitnyacandra". Mitchiner also opted for Yitnyacandra on the basis of the two available coins (1978d. 73-74). Since then the present coin surfaced, which according to Mitchiner, clearly favours the reading "Yajnacandra"	
Niticandra, c. 499-554

Mughal Empire**Nur-ud-din Jahangir (AH 1014-1037 / AD 1605-1628)**

Zodiac Rupee Taurus (month: Ardibihisht), mint: Ahmadabad, date: AH1027/Ry13 (KM.150.5) - Very rare and therefore, despite only in VG-F condition, still very much in demand.

6792 Beginning April 1618 (Julian calendar), Jahangir entered in his diary an innovation in coinage "Prior to this, it has been the rule that one side of gold coins my name has been engraved, and on the other side the name of the minting place, the month, and the regnal year. Around this time it occurred to me that instead of the month a figure of the constellation representing the month should be depicted. For example, for the month of Farwardin a figure of Aries could be made, and for the month of Ardibihisht the figure of Taurus, and so on for every month in which a coin was minted one side would bear a picture of the constellation in which the sun rose. This method is peculiarly my own and has never been used before." (The Jahangirnama) 500

6878	AR 2 fanam nd. (1695-1794) (KM284, Stevens6.4), struck for use in Benkulen, the three letters "GCE" on the obverse stand for "(The) G(overnor and) C(ompany of Merchants of London trading to the) E(ast Indies)", the official full name of the Company at its creation - 1.76 g. - VF, the British East India Company established a pepper-trading center and garrison at Bengkulu (Benkulen) in 1685. In 1714 the British built Fort Marlborough in the city before ceding it to the Dutch as part of the Anglo-Dutch Treaty of 1824, the weight should be between 2.02-2.19 g for a 2 fanam or 1.04-1.14 for a single fanam. Therefore it makes this piece suspicious	30

6881	Rupee nd. (1835-40) with beautiful Mint Error: 'Obverse brockage error' - Error showing an incuse, mirror image of obverse King William IV head design on the reverse instead of the usual reverse design' - rare - VF/XF, so-called 'Lakhi', it is presumed that statistically about one in a lakh (100.000) happen to be a brockage, that's why in India they are generally referred to as "Lakhi". It also could be a straightforward corruption of the word 'lucky' and may have its origins in the charm-like qualities that people would attribute to the brockage, which were rare occurrences. 7581	20 Dollars 1873-CC - Liberty head (KM74.2, Fr.175) - Obv: Liberty head / Rev: Eagle and shield - Gold - NGC AU55 (5785927-001), the fourth issue in the Carson City double eagle series enjoys a low mintage of 22.410 coins and a survival rate between 0.75% and 2.25%. That translates to about 375 to 500 coins. This is the last of the truly scarce early issues from this mint. Although the 1874-CC is conditionally scarce in Mint State, that later issue is several times more plentiful than the 1873-CC overall. The 1873-CC is seldom offered even in the upper AU levels, and in Mint State examples are out of reach even for many patient collectors. The present Choice AU coin displays lustrous surfaces and original straw-gold patina. Detail is bold, showing little wear. Carson City gold from this period is almost always heavily abraded. The present coin has scattered marks and abrasions, although few are individually significant	5000
