## The Charles W. Lueders III Collection of Indian & Asian Coins, Part II

### Charles W. Lueders, III, (1939 – 2019)

Charles W. Lueders, III, "Chuck" to his friends, was born on September 3, 1939 in Pittsburgh, PA., where his father worked as an engineer at the Irvin Works of U.S. Steel. After the war, his family moved to New Jersey, where Chuck grew up and lived for the rest of his life.

A graduate of Penn Charter in Philadelphia and Lehigh University, where he earned his bachelor's degree, he began his career with the State of New Jersey as a social worker. He had two children with his first wife, Elizabeth Lewis Rupkey, and later earned his master's degree in social work administration from Rider University. He was a systems analyst and manager with the State by the time he retired in 1993. In the late-1990's, he worked as a consultant addressing Y2K computer issues in anticipation of the new millennium.

Chuck was a man of many interests. A motorcycle enthusiast, he rode extensively in the U.S. as well as in Canada and Europe. A true Jersey Boy, he enjoyed nature and adored swimming in the ocean. His lifelong love of jazz music began in college. He had a passion for food and was an excellent cook.

A talented painter and photographer, he also had an interest in metal arts and took up blacksmithing later in life with gusto. He had a youthful exuberance and profound intellectual curiosity.

Chuck's interest in coin collecting began at a young age. He saw his father collect stamps and U.S. coinage. As a boy, his Aunt Louise, who had the opportunity to travel broadly, brought him coinage from every country she visited. This became the beginning of his world coin collection and was a special subset of his collection that he held dear for his whole life.

Once Chuck retired in 1993 and he had the time to pursue his many interests, his world coin collection expanded. Eventually, having an ancestral connection and a love of all things French, he began to focus his historical research and coin collecting on France and the French colonies. He joined the Société Américaine pour l'Étude de la Numismatique Française (S.A.E.N.F.) and served in several official positions over the years, including Treasurer and President.

In the mid-1990's, Chuck became very interested in the history and coinage of French India. His interest started with a small silver coin that he picked up at a local show. It was a fanon. He looked it up and the more he learned about the French in India, the more questions he had. Along with his inquiries and study, he picked up more coins and books, and started to read more about French colonial history. This turned into a 5+-year self-education project that included his developing and personally providing a presentation at the 2002 New York International Numismatic Convention entitled "French Colonial India: Competition, Coins and Commerce." During the presentation he used more than 30 slides of coins and material from his personal collection.

Although his primary focus had become expanding and improving his French and French Colonies collections, he still had a wandering eye and continued to enjoy and purchase coins from all over the world. He bought most of his coins through auctions or from dealers that he knew. He loved a good coin show and could be seen annually at the ANA Chicago Coin Show or the NYINC Show with his wife, Karen Stewart Lueders, who shares his interest in coins. When asked about collecting, he said he enjoyed the camaraderie of coin dealers and fellow collectors, the interesting discussions of history, the surprise and delight of an unusual find and all the joy that coin collecting has to offer. He also collected books, catalogs and antique maps and prints that related to his coin collections.

Chuck continues to be celebrated and missed by his wife, children, grandchildren, extended family and a host of friends and acquaintances fortunate enough to have crossed paths with him.

*After the assassination of Seleukos IV on September 3, his minister Heliodoros attempted to take power by installing the king's young son, also named Antiochos. This proved unsuccessful as Heliodoros was driven out by forces loyal to the king's brother, who then took the throne as Antiochos IV. *This unusual type in the name of the long-deceased Antiochos IV was issued only in Antioch in 146/5 BC. Mørholm (NC 1960) postulates that it was struck either by Alexander Balas as a desperate attempt to win over the people of Antioch by invoking their fond memories of the late ruler, or by local magistrates during the brief interregnum between Alexander's ouster from the city and the arrival of Demetrios II.*

Tughj**, 935-946, AR dirham (2.95g), Misr, AH334, A-675, Bacharach—, ruler cited only as al-Ikshid, as was his standard, citing the caliph al-Muti'; unknown to Bacharach, who published no silver Ikshidid coins of Misr dated after AH332 (but gold was common at Misr until end of dynasty), the only other known example sold in SARC Auction 38, lot 241, EF, RRR \$200 - 300

223. **QARMATID: Ibn al-Mu'izzi**, AR fractional dirham (1.09g), Makka, AH370, A-687H, mint and date in the margin, with uncertain word below *Allah* in the center, with the mint engraved as on Zeno-245671 (anonymous, dated AH380) // *al-imam / ibn al-mu'izzi* in the center, Qur'an 9:30 in the margin; unpublished and unique, Fine, RRRR \$2,000 - 2,500

*The actual name of Ibn al-Mu'izzi is unknown. Al-Mu'izzi was the Qarmatid Alptegin, who took the honorific name al-Mu'izzi from the Buwayhid Mu'izz al-Dawla, whom he had formerly served. Coins of Alptegin al-Mu'izz were struck at Palestinian and Syrian mints, dated AH364-368. Makka came under Fatimid authority in 362, and Fatimid dinars were struck at Makka all years AH363-366. Afterwards, the only Fatimid dinars (and no Fatimid silver) were struck in AH394, 420, and 442, after which there was no coinage struck at Makka until AH594 (Ayyubid).*

224. **FATIMID: al-Qa'im**, 934-946, AR ½ dirham (1.34g), Fàs (Fès), AH(32)8, A-693, Nicol— (type C), type C, clear mint name and last digit of the date, Fine, RRR \$600 - 800
- Nicol knew of only two examples of Fès for al-Qa'im, one each dated AH330 and 331 (Nicol-144, type D, and 145, type B1).*

225. **FATIMID: al-Qa'im**, 934-946, AR local dirham (1.67g), mint undeciphered, AH33x, A-693F, in the name of the Fatimid caliph Muhammad Abu'l-Qasim on the obverse and the name the al-Imam al-Mahdi on the reverse (standard for coins of al-Qa'im), but without the name of al-Qa'im himself, fine style, similar to contemporary dirhams of the Banu Ifran and Banu Khazar, two of the Zanata tribes in the region of Algeria; slightly uneven surfaces, unpublished and of the highest rarity, VF, RRRR \$500 - 700

*This is likely an issue of one of the Zanata tribes, either the Ifran and Khazar tribes that issued coins or another tribe that is not known for coins, struck in the name of the Fatimid ruler honoring military assistance against the threatened invasion of the Umayyad of Spain forces or of another Zanata or related tribe.*

*This is the only type that included al-Mansur's laqab, and one of the very few known coins from the extremely rare Fatimid mint as Fès. The example sold in our Auction 46, lot 428, is a much later imitation of this type, probably struck somewhere in Syria during the Mirdasid period, a century after this coin, its prototype. 264. **FATIMID: al-Hakim**, 996-1021, AR 1/2 dirham (1.32g), Siqilliya, DM, A-711.2, Nicol—, very clear mint name in the obverse margin, followed by the date, which is too weak to determine; style similar to Nicol series J, but obverse slightly differently arranged and the reverse with *la ilah illa Allah* transferred from the center to the inner marginal legend, Fine, RRR \$800 - 1,000

*Nicol lists only two half dirhams for Siqilliya under al-Hakim, his #996-997, both of differently arranged designs, and both unique.*

285. **FATIMID: al-Mustansir**, 1036-1094, AV dinar (4.22g), Misr, AH447, A-719A, Nicol-2130, slightly uneven surfaces, VF \$260 - 300

286. **FATIMID: al-Mustansir**, 1036-1094, AV dinar (3.75g), Misr, AH447, A-719A, Nicol-2130, slightly uneven surfaces, VF \$240 - 280

287. **FATIMID: al-Mustansir**, 1036-1094, AV dinar (4.25g), Misr, AH454, A-719A, Nicol-2137, VF-EF \$300 - 400

288. **FATIMID: al-Mustansir**, 1036-1094, AV dinar (3.30g), Filastin, AH454, A-719A, Nicol-2078 (only 2 examples cited), slightly uneven surfaces, but overall very attractive, lovely VF, RR \$700 - 900

289. **FATIMID: al-Mustansir**, 1036-1094, "AV" dinar (2.68g), Madinat al-Salam, A-719A, Nicol-2097 (different obverse die), Jafar-F.MS.451F (as illustrated by Nicol for #2097), some corrosion reveals that this is a gold-plated copper or billon host; clear mint name but the date is completely broken off; corroded and much surface damage, F-VF, RRRR \$1,200 - 1,500

*The Tübingen specimen illustrated by Nicol is clearly gold and weighs 4.17g. The calligraphy and style of both this piece and Nicol's piece are correct and were likely struck from dies produced in either Egypt or Syria, perhaps taken to Baghdad for production, hoping that Baghdad would remain in Fatimid control after the conquest by al-Basisir, which of course never happened.*

290. **FATIMID: al-Mustansir**, 1036-1094, BI dirham (2.46g), NM, AH(4)49, A-723, unusual style, VF, RR \$300 - 400

291. **FATIMID: al-Mustansir**, 1036-1094, BI dirham (1.97g), AH(7)2x, A-723, only the name *al-mustansir billah* in the obverse center, similar to contemporary issues of the Mirdasids, also with the crescent above the obverse & reverse centers, VF, RRR \$300 - 400

292. **FATIMID: al-Mustansir**, 1036-1094, BI dirham (1.39g), NM, ND, A-723S, stellate design, as on the gold ¼ dinar of type A-722, legend relatively clear, VF, RR \$250 - 300

293. **FATIMID: al-Mustansir**, 1036-1094, AR 1/8 dirham (0.40g), MM, ND, A-723-var, legends somewhat like Nicol type G, with just *al-imam / ma'add* in the obverse center, the mint formula around but the mint itself off flan, reverse with the kalima without *'ali wali Allah*, appears to be unpublished, VF, RRR \$300 - 400

294. **FATIMID: al-Adid**, 1160-1171, glass weight/jeton (2.97g), A-746, FGJ-428, simple legend *al-imam / al-'adid / li-din Allah*, white, opaque, VF, R \$100 - 150

295. **FATIMID: rectangular weight** (28.79g), stamped twice on each of the two main area, with 2 or 3 dots on each of the side areas; the stamp starts with *'amal muhammad* ("by order of Muhammad") with uncertain word after the name, Fine \$200 - 250

296. **FATIMID: round weight** (20.75g), stamped only once on the obverse, with undeciphered name(s), some weakness of the stamp; attributed to the Fatimid by the style that derives from typical Fatimid coins, Fine \$150 - 200

297. **HAMDANID: 'Aziz al-Dawla Fatik**, 1017-1024, BI dirham (1.33g), NM, ND, A-A753.1, also citing the Fatimid caliph al-Hakim, about 40% flat strike, VG-F, RRR \$350 - 450

298. **HAMDANID: Uncertain ruler**, BI dirham (3.22g), Halab, DM, A—, citing the Fatimid Imam al-Hakim (AH387-411); the ruler's name remains undeciphered due to double-striking on the obverse and it is clearly not 'Aziz al-Dawla Fatik, as on his type A-A753, VF, RRR \$500 - 600

299. **'UQAYLID: Unknown ruler**, 11th century, BI dirham (2.93g), NM, ND, A—, citing the Abbasid caliph al-Qa'im (AH422-467). The name below the reverse is something like Kurbughā b. al-Khās, with the ruler Mu'ayyid al-Din 'Izz al-Dawla above, and a certain governor on the obverse, possibly read as al-Malik b. al-Mu'izz Muhammad, also unidentified; the style is clearly northern Syria or northern Iraq; apparently unpublished, attractive VF, **RRR** \$400 - 500

*Possibly the same Kurbughā known on later 'Uqaylid dinars, with the title Qawwam al-Dawla and citing the caliph al-Mustazhir, so no earlier than AH487. 'Izz al-Dawla is perhaps the 'Uqaylid 'Izz al-Dawla 'Alam al-Din Quraysh, who ruled AH443-453, at Mawsil until 448, unknown location thereafter until 453.*

300. **MIRDASID: Asad al-Dawla Salih**, 1023-1029, BI dirham (1.18g), NM, ND, A-766, the Shi'ite kalima divided between obverse and reverse, citing Asad al-Dawla on the obverse, the Fatimid Imam al-Zahir on the reverse, without the Mirdasid heir Abu 'Ulwan Thamal: weak strike, VG-F, **RR** \$350 - 450

301. **MIRDASID: Shibl al-Dawla Nasr I**, 1029-1038, BI dirham (1.89g), NM, ND, A-767, with his honorific title *dhu'l-ghazwayn* in the obverse center, the Fatimid caliph al-Mustansir in the reverse center, with unread marginal legends on both sides, seems to be a newly found version of this type, VF, **RR** \$400 - 500

302. **MIRDASID: Mu'izz al-Dawla Thamal**, 1042-1058, BI dirham (2.42g), Halab, AH434, A-768, citing the ruler only as *mu'izz al-dawla abu 'ulwan*, the first example known to us with clear mint & date; citing the Fatimid Imam al-Mustansir, VF, **RRR** \$200 - 300

303. **MIRDASID: 'Atiya b. Salih**, 1062-1065, AE fals (2.48g), NM, ND, A-B769, named only by his titulature *'umdat al-imama wa 'uddat al-dawlah* (with *lah* at the top of the obverse, clear on this example), citing the Fatimid caliph al-Mustansir in the inner margin on the obverse, and with the final part of the Shi'ite kalima, *'ali wali Allah*, clear in the obverse field, VF, **RRR** \$200 - 300

*Far superior to the three examples filed on CoinArchives, each of which sold in our auctions 42, 45, and 46, none of which showed the name al-Mustansir, clear on this piece.*

304. **SELJUQ OF SYRIA: Ridwan**, 1095-1113, black dirham (1.15g), NM, ND, A-777, Zeno-117839, triangular legends around a circle both sides, with *al-malik ridwan al-muzaffar* on the obverse, part of the kalima on the reverse, lovely patina, VF, **RRR** \$250 - 300

306. **BURJI MAMLUK: Barsbay**, 1422-1438, AV ashrafi (3.37g), al-Qahira, AH84x, A-998, beautiful strike, VF-EF \$220 - 280

### Arabian Peninsula

307. **ABBASID OF YEMEN: al-Ma'mun**, 813-833, AR ¼ dirham (0.58g), San'a, AH210, A-1050R, marked *rub'* ("quarter") below the reverse field, struck from special dies for this tiny denomination; full mint & date, Fine, **RRR** \$300 - 400

310. **ABBASID OF YEMEN: al-Muqtadir**, 908-932, AR sudaysi (0.30g), NM, ND, A-1058D, Zeno-316510 (this piece, with analysis by Vladimir Suchy), kalima // *al-muqtadir billah (bin) / [al-Jmu'tadid ... / amir al-mu'minin*, Yemeni style; first known example, unpublished, VF-EF, **RRR** \$300 - 400

311. **RASSID: al-Hadi**, 898-911, AV dinar mutawwaq (2.85g), Sa'da, AH298, A-1065, ruler cited as *al-hadi illa al-haqq amir al-mu'minin bin rasul Allah*, AU, **Scarce** \$350 - 450

**A Samanid Medallion of the Highest Rarity!**

401. **SAMANID: Mansur I b. Nuh**, 961-976, AR cast medallion (12.07g), AH358, 33mm, in obverse margin, *bismillah duriba hadha al-dirham bi-Bukhara sanat thaman wa khamsin wa thalath miat hijra nabi salla Allah alayhi*, in obverse field, *la ilaha illa Allah / wahdahu la sharik lahu / Muhammad rasul Allah / al-muti lillah / al-malik al-muzaffar / mansur b. nuh* // royal bust facing left, crowned and armored, with braided hair down his back with Pahlavi legend *xvarrah apzwt - shahanshah* to right and left, attractive old toning, VF, ex Classical Numismatic Group (CNG) Islamic Auction 2, Lot 288 \$15,000 - 20,000

The portrait on the reverse of this remarkable piece has extremely close similarities with pre-Islamic medallions issued by the Turkic rulers of Tukharistan, Kabul and Gandhara during the early seventh century AD. Kamoliddin has drawn particular attention to a silver medallion issued by the Turkic ruler Zik (circa AD 610-8) after his victories near Rayy and Isbahan in AD 617/8. The portrait of this piece is very close to that on this Samanid medallion, with a similar crown, long hair similarly braided and flowing down the rulers back, and a similar necklace and armor. The Middle Persian legends are also virtually identical (save that the Turkic medallion includes Ziks name after GDH pzw) and even the calligraphy itself is a remarkably close match. It is difficult to escape the conclusion that this Turkic piece served as the prototype for the obverse of this Samanid medallion produced three and a half centuries later.

The prototype for the obverse, however, comes from a more recent source. In AH 351, the Buwayhid ruler Rukn al-Dawla issued medallions of his own at al-Muhammadiya (Rayy), of which examples are known in both silver and bronze. The obverse legends are virtually identical to those on this Samanid medallion, including the exceptional addition of *min hijra nabi salla Allah alayhi* at the end of the marginal legend; the only differences are the mint, date, and the two lines at the bottom of the field which contain the rulers name and titles. Not only are the legends themselves identical, but the calligraphy on both pieces, both Arabic and Pahlavi, appears to be the work of the same engraver, with the elaborate braiding adorning the name of the caliph al-Muti in the fourth line of the field a particular point of resemblance. The reverse of the Buwayhid medallion, meanwhile, depicts a facing Sasanian-style bust, flanked by the same Pahlavi legends GDH pzw - Shahanshah that we find on the Samanid medallion offered here. Miles considered that this stylized Sasanian bust concealed a representation of Rukn al-Dawla, and it may well be that the image on the reverse of the present medallion likewise bears a portrait of Mansur b. Nuh himself. Kamoliddin notes that the facial features modified on the Samanid medallion have been subtly modified from the Turkic prototype, although other details have been faithfully retained.

See Kamoliddin, S., *On the Religion of the Samanids Ancestors, Transoxiana 11* (July 2006), pp. 3-22, p. 13 (illustrating an example in the Ashmolean Museum, Oxford, still apparently unpublished). Toned. VF. Of the highest rarity, believed one of only two specimens known.

*The State of Chu was an ancient Chinese state in the Yangtze Valley during the Zhou Dynasty. Originally Chu was considered a viscounty, but starting from King Wu in the early 8th century BC, the rulers of Chu declared themselves kings on an equal footing with the Zhou rulers. Originally known as Jing and then as Jingchu, Chu occupied vast areas of land at its height, including most of the present-day provinces of Hubei and Hunan, along with parts of Chongqing, Guizhou, Henan, Anhui, Jiangxi, Jiangsu, Zhejiang, and Shanghai. The "huo" in the reverse inscription "shi huo" probably refers to ten ant nose type coins. These spades are thick and robust with well-developed rims all the way around, usually crudely cast with a large round hole in the top.*

*Da Chao, meaning "Great Dynasty", was the Chinese name the Mongols used for themselves. According to Hartill, "This coin is alleged to have been cast by the legendary Genghis Khan at his capital at Karakorum." This would place the date about 50-60 years prior to the formal foundation of the Yuan dynasty in 1271. *William Francis Greany (1857-1924), was born in October 1857 in California of Irish Catholic immigrants from County Galway. His father worked as a hay and grain dealer and was a Knight of St. Patrick, and a Captain of the Jackson Dragoons, the famous Irish cavalry, which he commanded for fourteen years. He was a coin, stamp and curiosities dealer who began at least by 1881, and published 32- and 24-page catalogs and widely advertised. His debut seems to have been made in the March 1881 issue of Mason's Coin Collectors Herald.*

Sycee

632. **CHINA: Silver Ingots: AR sycee** (162.0g), ca. 1884-1914, Cribb-800 (Class-LXVI), 54 x 37 x 14mm, 4.5-tael Yunnan *sanchuo jieding* (three stamp remittance ingot) "packsaddle" type, cast at Leiqingtai Bank in the month of May, with additional stamp *ku* (treasury) in center; the two ridges applied with modern fantasy stamps of *guang dong sheng zao* (Made in Guangdong Province), VF \$300 - 500

*The Yunnan Board of Revenue began accepting three stamp remittance ingots as tax payment in 1904. Due to the lower purity of these sycees (usually around 98%), a supplementary payment was required to make up the difference and these sycees were stamped with ku to distinguish them from the those used as tax payment. The fantasy stamps were likely applied in Southeast Asia in the 1960's-70's.*

*This medal was presented by Chang Hsueh-liang (Zhang Xueliang) to graduates of his officer training school in Xi'an in June 1936. Chang was the warlord of Manchuria and a prominent military leader in Chiang Kai-shek's Nationalist government. He is regarded by many as one of the great heroes of China in 20th century history for his role in the famous Xi'an Incident. Having failed to persuade Chiang to make peace with Chinese Communists in the face of Japanese aggression, Chang planned and executed the daring kidnapping of Chiang during his visit to Xi'an in the early hours of December 12, 1936. The ensuing negotiations resulted in a temporary truce between the Nationalists and the Communists, which marked a turning point in the history of the Chinese Communist Party. For his trouble, Chang was arrested and kept under house arrest for the next 52 years by Chiang and his son, first on the mainland and then in Taiwan. It was not until 1990 that he finally regained his freedom and later emigrated to Honolulu, where he died in 2001 at the age of 100.*

680. **CHINA:** AR medal, ND (ca. 1939-43), hand-engraved inscriptions on a Yuan Shi-kai "Fat Man" dollar: *qian jiang xian / ma wang miao jing bei dui / zao wan wu zhang dian / qian jiang jing cha ju / di er fen suo zhang li ming shou / jing zeng* ("Qianjiang County Mawang Temple Garrison (*keibitai*), Corporal (*gocho*) Hayamaru-dono ("compliments of Qianjiang Police Department, Chief of the Second Precinct, Li Mingshou") // *yong jiu ji nian* ("eternal commemoration"), attached with chain and bar, toned, EF \$300 - 400

*Given the Japanese name, rank, and honorific of the recipient, this appears to be a gift from a local collaborationist official during the Japanese occupation of Qianjiang County in central Hubei between 1939 and 1943. Another example, also presented to Corporal Hayamaru and made by the same engraver (ex Shanghai Hosane, Spring 2023, Lot 1828, sold for RMB ¥32,200), bore the name and title of Wang Chengxuan, the Inspector of the Qianjiang Police Department. Archival records show that Wang was tried in 1946 at the Hubei High Court on charges of being a "hanjian", an extremely pejorative term equivalent to "quisling" in the Western world.*

*There is no doubt that Muhammad Malla was killed in AH1278 (February 1862). Although it was formerly considered a rebel issue in or near Khoqand, Irpon Tukhtiev & Vladimir Nastich have proven that these coins were actually struck at Kashgar in Sinkiang by local rebels under the authority of Ya'qub Beg (their paper delivered at the 9th All-Russian Numismatic Conference in Veliki Novgorod in 2001). They bore no relationship to actual issues of Khoqand, and were replaced in AH1290 by issues in the name of the Ottoman sultan 'Abd al-'Aziz, correctly citing the mint of issue as Kashghar. It is possible that the dies were produced at Khoqand and shipped to Kashgar for Ya'qub Beg.*

*This type is said to have been issued in the 17th year of Daoguang's reign by the local government in order to pay troops to suppress a rebellion led by Zhang Wen. Its high purity (ca. 98%) and greater silver content than contemporary Western crowns made it a popular currency, as it is often found with numerous chopmarks. But this also led to many examples being melted down, which further contributes to its great scarcity today.*

*Friedrich Wilhelm Voigt (1849-1922) was a German impostor who, in 1906, masqueraded as a Prussian military officer, rounded up a number of soldiers under his "command", and "confiscated" more than 4,000 marks from a municipal treasury. Although he served two years in prison, he became a folk hero as "the Captain of Köpenick" (der Hauptmann von Köpenick). He was pardoned by Kaiser Wilhelm II. The initials at reverse center stand for Paul Herpich, proprietor of a "Konfektionsgeschäft" (fine clothing store) in Berlin. A number of these tokens have been attributed to Kiau Chau recently by grading companies and various auction houses. In our opinion the attribution is tenuous and it is more likely strictly a Berlin token issue.*

It was centered on Jiaozhou Bay on the southern coast of the Shandong Peninsula, China. The administrative center was at Qingdao. It was operated by the East Asia Squadron of the Imperial German Navy.*

791. **TIBET:** AR Da-shu-ma Kem-pa (mohar) (5.27g), NS842 (1722), produced using a Bhatgaon mohar of Ranajit Malla (MS842), with bow-and-arrow design added over the trident, a very rare and interesting item! VF, ex Nicholas Rhodes Collection \$200 - 300

*These pieces and other similar Nepalese coins altered in this way (with bow and arrow design skillfully engraved), were used as talismans in Tibet. It was believed that the owner of such a piece would be blessed with a boy child. They were regarded as very valuable as few were made. Coins altered in this way were called Da-shu-ma Kem-pa by the Tibetans (RGV, 1989, p. 210). "Da-shu-ma" (mda' gzhu ma) means "with arrow and bow." According to Carlo Valdettaro the bow and arrow design was carefully welded on to the coin whereas Nicholas Rhodes thought that it was engraved. We believe that both methods were used in order to produce this auspicious design; the outline of the design was engraved first, then thin silver wire was welded into the groove left by the engraving.*

*For a similar example, see our Auction 30, Lot 1940.*

*The tangka coins of this series are known as "Ranjana Tangkas", referring to the type of script which is used on both sides, an ornamental script also known as Lantsa. The legend represents an invocation of Lakshmi, the Hindu goddess of wealth and good luck. Variants of the obverse legends have been noted. All the coins of this type are dated, but some of the dates do not make sense. It is believed that these coins were struck in the late 19th and early 20th*

*Century in Tibet by Nepalese merchants, and that they circulated at the same value as the Kong Par and Gaden tangkas (see Bertsch, Wolfgang: "The Tibetan Tangka with Rañjana Script", Oriental Numismatic Society, Newsletter, no. 185, autumn, 2005, pp. 18-31). *Formerly it was assumed that these tangkas were distributed to monks on behalf of the 14th Dalai Lama in the late 1940s. The Tibetans referred to this Tangka as Tangka dkarpo sa rpa ("new white tangka") in order to distinguish it from the normal ga-den tangkas. This coin circulated for some time at the value of 5 srang, which shows the high inflation rate which was prevailing in Tibet in the 20th Century. In the 19th Century 6½ tangkas were equivalent to 1 srang which corresponded to slightly more than 37 grams of silver. Taking the circulating value of this "Monk" tangka as a base, 1 srang was equal to about 33½ tangkas in 1953-54.*

*Unlike most Princely States, Sikh silver rupee fractions are at least very rare. It is likely that they were produced in minuscule quantities, probably only for government payments that required one or a few fractions together with large quantities of full rupees.*

938. **SIKH EMPIRE: AR nanakshahi rupee**, Amritsar, VS1878, KM-20.1, Herrli-01.07.04, gorgeous strike, with lots of original luster! NGC graded MS63 \$150 - 200

939. **SIKH EMPIRE: AR nanakshahi rupee**, Amritsar, VS1880, KM-20.1, Herrli-01.07.04, bold strike, much original luster, NGC graded MS64 \$150 - 200

940. **SIKH EMPIRE: AR nanakshahi rupee**, Amritsar, VS1883, KM-20.1, Herrli-01.07.04, magnificent strike and lots of original luster, better date, NGC graded MS63 \$150 - 200

941. **SIKH EMPIRE: AR gobindshahi rupee** (11.10g), Amritsar, VS1900, KM-21.2, Herrli-01.22.04, VS1884 series; fish symbol in obverse center, EF, **RR** \$150 - 200

942. **SIKH EMPIRE:** AR gobindshahi rupee (11.10g), Amritsar, VS1901, KM-21.2. Herlli-01.22.04, VS1884 series; flower symbol in obverse center and in interest floral symbol between the words *az* and *nanak* atop the obverse, EF-AU, **RR** \$150 - 200

943. **SIKH EMPIRE:** AR gobindshahi rupee (10.94g), Amritsar, VS1902, KM-21.2. Herlli-01.22.04, VS1884 series; flower symbol in obverse center, EF-AU, **RR** \$180 - 240

944. **SIKH EMPIRE:** AR gobindshahi rupee (11.13g), Amritsar, VS1903, KM-21.2. Herlli-01.22.04, VS1884 series; floral symbol in obverse center, choice EF, **RR** \$180 - 240

945. **SIKH EMPIRE:** AR nanakshahi rupee (10.98g), Amritsar, VS1906, Herlli-01.12.04, KM-22.10., VS1885 series, so-called "lazy W" below chhatra, which is actually RAM in the Lande script, VF, **RRR** \$400 - 500

*The British annexation of the Sikh Empire concluded on 29 March 1849, but the year VS1906 did not commence until 28 April 1849. It is likely that the 1906 dies were produced in advance, and for whatever reasons, used for the last coinage of the previous year. Rupees of Amritsar dated VS1905 are rare, and 1906 extremely rare. The chhatra form on this piece, with the Lande script below, was used only in 1905 & 1906, quite different from the form used in VS1899-1901, and never in 1902, thus the "6" of the date cannot be a retrograde "2".*

946. **SIKH EMPIRE:** AR rupee (11.31g), Lahore, AH1122 year 5, KM-349.3 (Mughal), in the name of Shah Alam I, standard Mughal design but with the khanda symbol of the Sikhs within the obverse center, 5 testmarks, removed from jewelry or other use, F-VF, **RR** \$150 - 200

*This type, bearing the Sikh symbol, was likely struck by supporters of the Sikhs inside the city of Lahore, for unknown arrangements. By this year (=1710/11), the Sikhs had conquered most of eastern Punjab but not the city of Lahore, which would remain under Mughal authority until 1765. However, it seems reasonable that the Mughal officials at the Lahore mint may have authorized to insert the khanda symbol for unrecorded political reasons (published in ONS Newsletter #144).*

947. **SIKH EMPIRE:** AR rupee (11.54g), Lahore, AH1123 year 5, KM-349.3 (Mughal), in the name of Shah Alam I, standard Mughal design but with the khanda symbol of the Sikhs within the obverse center, 2 testmarks, VF, **RR** \$250 - 350

948. **SIKH EMPIRE:** AE falus (paisa) (11.90g), Multan, VS1833, KM-76, Herlli-11.02.11, citing Guru Gobind Singhjiyo (above the word *falus* and the full date) on the obverse, mint name on the reverse above the words *falus mubarak*; struck during the first Sikh occupation of Multan (1772-80), F-VF, **RRR** \$200 - 300

*Struck from the same dies as the example sold in our Auction 44, lot 762.*

949. **SIKH EMPIRE:** AE falus (paisa) (12.53g), Multan, VS[18]82, KM-77var. Herlli-11.08, VF-EF, **RR** \$150 - 200

950. **SIKH EMPIRE:** AR rupee (8.43g), Peshawar, VS1892//1892, KM-98.2, Herlli-13.02.04, slightly off-center strike, thus revealing the outer borders on both sides; minor spot of weakness, EF, **R** \$300 - 400

951. **SIKH EMPIRE:** AR nanakshahi rupee (11.08g), unidentified mint, VS1889, KM—, Herlli-32.01.04, 1 edge testmark, no testmarks on the surfaces, EF, **RRR** \$600 - 800

*The mint is listed by Herlli as "Unidentified Sikh mint E." It has tentatively been read as Sitamachi or Sitamaji, but that name does not match any known location. The type was first reported in 2001, from a small group of perhaps 10-15 pieces allegedly found in Pakistan.*

952. **TRIPURA:** Ananta Manikyā, 1564-1567, AR tanka (10.44g), SE1487, KM-74, Rh-129, lion left, border of cusped arcs // 4-line legend in square *sri sri yutananta manikyā deva sri ratnavati maha devyau*, citing the Queen Ratnavati; some adhesions on the obverse, bold strike, VF-EF, **RR** \$200 - 250

956. **BENGAL PRESIDENCY: AR rupee**, "Murshidabad", AH1202 year 19, KM-106, Stv-4.9. Prid-153., first milled issue, struck at Calcutta in 1792 only, oblique milling right, no dots within the obverse rosettes, wide borders, pleasing toning, VF-EF \$200 - 300

*Pridmore attributed this type with its wide rims to trials that took place in 1790. Stevens, however, favors the year 1792 when a trial of laminating and cutting machinery took place at the Calcutta mint. It is reported that only 1000 pieces were struck, then replaced by the narrow border type.*

957. **BOMBAY PRESIDENCY: AR rupee** (11.58g), Surat, year 49, Stv-6.164, only the year 46 of this type is firmly assigned to the Bombay Presidency; according to Stevens, this type with most other years 43 through 52 may have been contemporary issues by a local Nawab, the French, or one of the Maratha states, choice VF, RR \$150 - 200

*Neither Pridmore nor Krause SCWC list dates of this type prior to AH1195, but others of these early dates are known. Cf. Baldwin's auction 40, lot 998, a similar rupee of AH1176 year 8, and Noonan's Auction 268 lot 257, the only two other examples of this early period that we have been able to trace.*

*These pieces were also called the Tanuma Go Momme Gin. Tanuma was Chief of the Palace Bureau and he authorized the production of this issue. He proclaimed that silver ornaments for personal use were a luxury, and should be confiscated for the purpose of making silver coin. The 5 momme silver was first issued in September 1765, at a rate of 12 pieces being the equivalent of 60 momme of silver. The Gomonme-gin silver coin carried the fixed denomination of "5 monme", and moneychangers, who had been earning profits from fluctuations of exchange rates in the market, strongly objected to the use of these coins, as the ratio was lower than the market price; as a result, the coin was not welcomed and mostly stayed on the counters of the money exchanges.*

Al-Hoseini, the person overseeing the minting operation was a senior member of the prominent Bodi tribe. Very few coins were produced, with up to 4 possible types with notable distinctions in the text, design, and even planchet thickness. A 'black dog' was a coin used in the Caribbean made of pewter or copper, typically worth 1 1/2 pence or 1/72 of a dollar. The name comes from the negative connotations of the word "dog", as they came from debased silver coins, and the dark color of those same debased coins. Black dogs were also at times called "stampees" or "stampees", as they were typically the coins of other colonial powers—French coins worth 2 sous or, equivalently, 24 deniers—stamped to make them British currency.

*These tokens were made ca. 1769 as a tribute to William Pitt the Elder, who endeared himself to Americans when he appealed to have the dreaded Stamp Act repealed. These were pressed into circulation during a shortage of regular coinage. It has been suggested that the piece may have been designed by Paul Revere.*

**A Rare "Periods" Variety 1793 Chain Cent**

1569. **UNITED STATES: AE cent, 1793, KM-11, Chain type, variety with Periods, environmental damage, PCGS graded VF details, RRR** \$10,000 - 15,000

*Several varieties of the 1793 Chain Cent exist. The "Periods" variety has distinct periods after LIBERTY and the date. Since neither of these were abbreviations, the presence of the periods is puzzling. This is the scarcest major variety of the 1793 Chain Cents. As of July 2011, PCGS had certified only 70 examples. The 1793 Periods Chain Cent is under considerable demand from die variety collectors, major variety collectors, type collectors, and first-year-of-issue collectors. The fascinating chain design on the reverse is another attraction.*

1570. **UNITED STATES: AE cent, 1794, KM-13, Liberty Cap type, 'Head of 1794' with denticled border variety, environmental damage, PCGS graded XF Details** \$1,000 - 1,200

*1794 Large Cents can be found with three major obverse types: Head of 1793; Head of 1794; and Head of 1795. The majority of 1794 Large Cent die varieties are of the Head of 1794 type. On these coins, the bottom curl is shaped like a distinct hook. Hair details can vary because of hand-finishing.*

**A Very Attractive 1795 Flowing Hair Dollar**

1571. **UNITED STATES: AR dollar, 1795, KM-17, Flowing Hair type, a very attractive example with old original toning, PCGS graded VF35, ex S.H. & H. Chapman with tag** \$6,000 - 8,000

*The Chapman brothers, Samuel Hudson and Henry, first worked for John Haseltine before joining forces and founding their own firm in 1879. Their 1882 sale of the Bushnell collection demonstrated their capability to attract important consignments and showcase them in an appealing manner. The Chapman brothers parted ways in 1906, for reasons unknown, and operated independently with good success into the 1930s. This coin was purchased from them before 1906.*

**A Lovely Toned 1796 Draped Bust Dollar**

1572. **UNITED STATES: AR dollar, 1796, KM-18, Draped Bust Small Eagle type, small date and small letters variety, a very attractive example with partial underlying luster under old original toning, PCGS graded XF40** \$6,000 - 7,000

*Three major varieties comprise the entire run of 1796 Silver Dollars: 1) Small Date, Small Letters; 2) Small Date, Large Letters; and 3) Large Date, Small Letters. Each of these major varieties is made up of one or more die varieties. The difference in the size of the dates is fairly apparent when the Small and Large Dates are placed side-by-side, but individual coins may be difficult to attribute out of context. The size difference of the lettering on the reverse is more dramatic and more easily discerned. Of the three major varieties, the Small Date, Small Letters is likely the most common. The finest examples certified by PCGS include four coins at the AU58 level with none in Mint State.*

**A Well Struck and Lustrous 1795 Gold 10 Dollar, The First American 10 Dollar Gold Piece!**

1573. **UNITED STATES:** AV 10 dollar, 1795, KM-21, Draped Bust type, small eagle reverse, 13 leaves variety, cleaned, but a well struck lustrous example! PCGS graded AU details \$30,000 - 40,000

*The 1795 'eagle' was the first American ten dollar gold piece. There are two varieties, one with 13 leaves on the branch below the eagle and one with 9 leaves. Only 5,583 total coins were struck for both varieties. For the 13 leaves, probably 400 to 500 exist today in all grades.*

*This lovely coin is featured on the cover of our auction catalog!*

The Chapman brothers parted ways in 1906, for reasons unknown, and operated independently with good success into the 1930s. This coin was purchased from them on May 1, 1906 for \$3.*

1576. **UNITED STATES:** AV 5 dollars, 1810, KM-38, Capped Bust type gold 'half eagle', large date, large 5, cleaned, PCGS graded AU details \$6,000 - 8,000

*From 1807 to 1812, a new design, titled the "Draped Bust" or "Capped Bust", was produced by John Reich. The "Draped Bust" design featured a round-capped Liberty facing left on the obverse and a modified eagle on the reverse.*

1577. **UNITED STATES:** AR 5 cents, 1836, KM-47, Capped Bust Half Dime type, small '5C' variety, a superb lustrous example! PCGS graded MS65, ex Marcel Hoessly Collection \$1,800 - 2,000

**A Simply Beautiful 1836 Gobrecht Dollar, Original Strike! PCGS graded Proof 62**

1578. **UNITED STATES:** AR dollar, 1836, Judd-60, "Gobrecht Dollar Pattern", original strike, an attractive proof example with original deep toning, PCGS graded Proof 62 \$20,000 - 30,000

*Judd-60 features the same design as on J-58/59, but the engraver's signature C. GOBRECHT F. (for fecit, or "he made it") has been discretely relocated onto Liberty's base where it is less conspicuous, and the letters are incuse. The first emission of 1836 was produced to the pre-1837 standard for fineness and weight, with 1,000 pieces coined. The dies are inverted in the normal "coin rotation" typical of United States issues, and the eagle correctly flies upward, with the legend stops balanced on a single horizontal plane.*

1584. **UNITED STATES:** AV 3 dollars, 1854, KM-84, Indian Princess type, PCGS graded AU53 \$1,000 - 1,500

February 21, 1853 was an important date in the history of American numismatics. Congress enacted legislation to reduce the weight of minor silver coinage, also authorizing the issuance of three dollar gold pieces. Section 7 of the Mint Act of that date read: 'And be it further enacted, that from time to time there shall be struck and coined at the Mint of the United States, and the branches thereof, conformably in all respects to law, and conformably in all respects to the standard of gold coins now established by law, a coin of gold of the value of three dollars, or units, and all the provisions of an act entitled 'An act to authorize the coinage of gold dollars and double eagles,' approved March third, eighteen hundred and forty nine, shall be applied to the coin herein authorized, so far as the same may be applicable, but the devices and shape of the three dollar piece shall be fixed by Secretary of the Treasury.' The first year of production for circulation was in 1854.

1585. **UNITED STATES:** AV 3 dollars, 1878, KM-84, Indian Princess type, an attractive lustrous mint state example, PCGS graded MS62 \$2,400 - 2,600

Series aficionados know that the dates usually selected for type purposes are either the 1854, which has by far the largest mintage, at 138,618 business strikes, the 1874, with a moderate midseries production of 41,800 coins, and the 1878, the last large three dollar gold emission, with a total of 82,304 pieces made.

1586. **UNITED STATES:** AE cent, 1857, KM-85, Flying Eagle type, NGC graded AU55 \$200 - 250

1587. **UNITED STATES:** AR dollar, 1877-S, KM-108, Trade issue, PCGS graded XF45 \$300 - 400

By 1877 trade dollars had become a nuisance in domestic circulation. It appears that the greater part of this issue's huge mintage did indeed get shipped to the Far East. Many of these coins were quickly melted and then cast into bars, while others became the source of silver for jewelry pieces. This was particularly true in India, which became the ultimate destination of many trade dollars received in the seaports of China and Southeast Asia.

1594. **UNITED STATES:** AV 5 dollars, 1894, KM-101, Liberty Head type gold 'half eagle', a wonderful lustrous example! PCGS graded MS64 \$1,000 - 1,200

The Philadelphia Mint struck just under a million five dollar gold pieces in 1894. They often come quite baggy, as evidenced by the average grade of MS61-MS62. This coin is less common in MS63, and is rare in choice. In gem, it is nearly impossible to locate.

1616. **UNITED STATES:** AV 2½ dollars, 1915-S, KM-137, Panama-Pacific Commemorative, a fantastic lustrous example! PCGS graded MS66, S \$5,000 - 6,000

*The Panama Canal, which remains one of the engineering marvels of the modern age, was completed in August of 1914. To celebrate this achievement, Congress authorized the Panama-Pacific International Exposition of 1915. This Expo, held in San Francisco, was also a celebration of the city's recovery from the devastating earthquake of 1906. In addition to the expo, Congress authorized a series of commemorative coins honoring the exposition. These were to include a half dollar, gold dollar, \$2.50 gold piece, and two different \$50 gold pieces; one round, and one octagonal. The bill authorizing these issues was signed into law on January 16, 1915. Mint sculptors Charles E. Barber and George T. Morgan were tasked with designing the coins obverse and reverse, respectively. Barbers design for the obverse depicts an allegorical figure the goddess Columbia astride a hippocampus, a Greek mythological sea horse with the head and forequarters of a horse and the tail of a fish. In her hand is a caduceus, the symbol of the medical profession, signifying the strides against yellow fever that had helped make the canals construction possible. The date is below this portrait; above it, along the rim, is the inscription PANAMA-PACIFIC EXPOSITION. The reverse depicts a left-facing American eagle perched atop a plaque on which is inscribed the motto E PLURIBUS UNUM. Below this is the statement of value—2½ DOL.—and above it, along the rim, is UNITED STATES OF AMERICA. The quarter eagles were struck (as were all the Panama-Pacific Exposition coins) at the San Francisco Mint. Although the maximum mintage of 10,000 coins was produced, 3,251 coins remained unsold and were melted, leaving a net mintage of just 6,749 coins.*

1617. **UNITED STATES:** AV dollar, 1916, KM-144, William McKinley Commemorative, a lovely mint state example! PCGS graded MS63 \$400 - 500

*In early 1916, Congress passed a law calling for the issuance of 100,000 gold dollars to be sold as souvenirs for \$3 apiece to raise money for a memorial to the assassinated President William McKinley in Niles, Ohio. Despite the lofty goals, only 20,026 pieces were struck in August and October 1916. The National McKinley Birthplace Memorial Association sold an estimated 8,000 pieces to the public, approximately 7,000 to Texas dealer B. Max Mehl (at reduced prices), and the rest were returned to the Mint and destroyed. Thus, the total number of 1916 McKinley Dollars that made it into the hands of the public is an estimated 15,000 pieces.*

The several coins included silver Half Dollars (with and without a star punched into the obverse die) and gold Dollars (with and without the extra obverse star). With a mintage of a mere 5,000 pieces, this is an extremely popular, collectible coin!*

### Tokens

1644. **UNITED STATES:** Kunkel's Opera Troupe, 2 reales token (6.31g), ND (ca. 1850's), Brunk K-347, Miller-MD-86F, 27mm countermarked 1814 Guatemala 2 reales (KM-67, assayer M, key date), KUNKEL'S / (OP)ERA TROUPE, corded edge, VF on Good-VG host \$175 - 225

*According to Brunk, George Kunkel was born in Greencastle, PA in 1821. He managed theaters during the 1850's in Richmond and Washington. At one time John Wilkes Booth was part of his company at the Jenny Lind Theater in Richmond. He moved to Baltimore, Maryland in 1855, where he managed the Old Front Street and Holliday Street Theaters. His company was known as Kunkel's Opera Troupe and specialized in minstrel shows. He died in 1855. Both varieties of countermarks, one in two-line and another in three-line configurations, appear to be equally scarce.*

1645. **UNITED STATES:** silvered white metal token, 1860, Miller-Pa90D, EDWARD COGAN / COIN / DEALER / 48 / N. TENTH St. / PHILADELPHIA // 1860 within laurel wreath, a lovely mint state example! PCGS graded MS63 \$200 - 300

*Edward David Cogan (1803-1884) issued a store card in 1860, which most probably marks the year he became a "full-time dealer", which at this time really meant specialist since coins were never exclusive in the trade until many many years later. Cogan arrived in Philadelphia, Pennsylvania on July 26, 1853. He began in the coin trade in 1855 at his shop at 48 North 10th Street, Philadelphia, which is most probably an exaggeration. In 1866 Cogan resided at 299 State Street, Brooklyn, New York, and later at 408 State Street, Brooklyn, Kings County, New York, 68 William Street, Brooklyn, New York, and at 95 William Street, Brooklyn.*

*After the fall of Shanghai, the city of Changzhou fell to the rapidly advancing Japanese army on Nov. 29, 1937. After months of carnage and destruction, survivors returned to the city by the end of 1938 and encountered an acute shortage of coins due to the closure of the Central Mint in Shanghai. Local merchants thus began issuing copper tokens, as well as paper vouchers and tally sticks, in order to facilitate commercial transactions. Over the next two years, a plethora of varieties were issued by businesses across the city. This practice was finally put to an end by the Wang Jingwei regime and replaced with the Central Reserve Currency.*

*This is one of the first two examples we have encountered from this ruler (Mahyudin) of an uncertain sultanate. It was found in Bone Regency in South Sulawesi, and the style of the inscriptions is very similar to the coinage of the nearby Gowa Sultanate (Makassar) in the 17th century. We thus tentatively attribute this coin to the Bone Sultanate (Kesultanan Bone), though there does not appear a ruler by that title except for a much later sultan who ruled in 1845-1857.*

*From the late 1800's to the turbulent early years of the Republic, there was a shortage of official government-issued currency in many parts of China. Private banks and large businesses subsequently began to issue their own "money." One form of local currency that was particular to Jiangsu, Zhejiang, and Shandong was made from bamboo. Various known as "bamboo tallies", "bamboo tokens" or "bamboo money", this type of money was commonly used in stores, restaurants, teahouses, and even brothels, even though it lacks the intrinsic value of gold, silver or bronze coins and was not backed by anything other than people's trust in the establishment that issued it.*

## TERMS OF SALE

**1. Auction Basics.** This is a public auction sale conducted by California bonded auctioneers, Stephen Album Rare Coins Inc. (hereinafter referred to as "Auctioneer"). Bidding in this Auction constitutes acceptance by you (the "Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction consigned by the consignor or by other consignors pursuant to their consignment agreement. The Auctioneer reserves the right to include in any auction sale its own material. Bidder acknowledges and agrees that the Auctioneer may not be required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting there from is expressly waived by all participants in the Auction. Lots may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Stephen Album Rare Coins Inc. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

**2. Descriptions and Grading.** Grading of rare coins is subjective and may differ among independent grading services and among numismatists, even though grading has a material effect on the value of the coins. Stephen Album Rare Coins Inc. is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stephen Album Rare Coins Inc. and lot descriptions are based solely upon an examination of the coins and are intended to note any perceived characteristics. Stephen Album Rare Coins Inc. does not warrant the accuracy of such grading or descriptions. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

**3. The Bidding Process.** The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or their agent, a Bidder by mail, telephone, internet or fax, or any other participant in the Auction. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in his or her sole and absolute discretion to accept or decline any bid, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid or pre-sale internet bid to be awarded any lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces it.

Absentee bids may be placed by fax, mail, email, or by telephone. Online bidding is also available on [www.iCollector.com](http://www.iCollector.com). Follow the link on our website, [www.stevealbum.com](http://www.stevealbum.com) in order to bid online. Your bids will be treated as a maximum bid. The winning bid will be one increment above the next highest bidder, or at the starting bid.

Stephen Album Rare Coins Inc. is not responsible for any errors in bidding. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stephen Album Rare Coins Inc. reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction.

**4. Buyer's Premiums and Payments.** A Buyer's Premium of twenty percent (20.0%) will be added to the hammer price for each lot to all successful bids. Accepted payments are by Visa, MasterCard, American Express, PayPal, cash, cashier's check, money order, approved personal check or bank wire transfer. If the purchaser pays by credit card (including credit-debit cards) or by PayPal, an additional service fee of four percent (4.0%) will be added. This service fee will apply to the hammer price, buyer's premium, shipping, and sales tax. A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction (the "Default Date"), without exception, time being of the essence, unless otherwise agreed in writing prior to the Auction. Any bidder who does not pay within the standard deadline of fourteen (14) calendar days, regardless of any approval of alternative payment arrangements, may be considered a negligent payer and may be subject to increased scrutiny and additional requirements in order to participate in future auctions. If a credit card is provided before the sale, Stephen Album Rare Coins reserves the right to charge your credit card for the total of your auction purchases if payment has not been received within the fourteen (14) calendar days deadline. All auction sales are payable strictly in immediately available good U.S. funds, through a bank in the United States. Personal checks must clear our bank before lots are delivered. Bounced or returned checks are subject to a \$35 fee.

Payments by PayPal are restricted to a maximum of \$5,000 per client. Payments by credit card are restricted to a maximum of \$10,000 per invoice. If a credit card has been used to pay for one invoice from the auction, it may not be used to pay for another invoice in the auction, regardless of the total amount of either invoice. We reserve the right to modify these payment limits, and we reserve the right to refuse payment by credit card or PayPal at our discretion, in which case a bank wire, check, or cash equivalent will be required.

Please contact Stephen Album Rare Coins Inc. for wiring instructions. Please inform us after bank wire has been sent. Please be advised that payments coming by wire transfer usually only take a few days to arrive, but in rare cases they can take up to a few weeks to arrive due to US government regulating, resulting in a delay of shipment of your lots. Lots will not be shipped until your full payment has arrived in our bank account. There is a \$15 fee for all bank wire transfers.

Stephen Album Rare Coins Inc. reserves the right not to release lots for which funds have not yet been received in full. On any past due accounts, Stephen Album Rare Coins Inc. reserves the right, without notice, to extend credit and impose carrying charges of 1% per month. Buyers agree to pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stephen Album Rare Coins Inc. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stephen Album Rare Coins Inc. reserves the right to require a written guarantee of such payments and obligations.

Lots are not available for pickup during the auction. Lots may be available for on-site pickup on the Monday following the sale if a formal request for pickup is provided by the Buyer before the auction, during the auction, or within 1 hour of the close of the final lot on the final day of the auction. We reserve the right to refuse this request for pickup, at our discretion. For on-site pickup, we will only accept cash or a bank transfer. If paying by bank transfer, the funds must reach our account before we will allow you to collect your lots.

**5. Credit.** Bidders who have not established credit with Stephen Album Rare Coins Inc. must furnish satisfactory credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction session(s) or such other amount as Stephen Album Rare Coins Inc. may, in its sole and absolute discretion, require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

**6. Shipping and Insurance.** It is the Buyer's responsibility to contact Stephen Album Rare Coins Inc. after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stephen Album Rare Coins Inc. may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. All state taxes, postage, shipping, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stephen Album Rare Coins Inc. no later than thirty (30) days after payment. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim.

Delivery outside the USA will be by USPS registered mail, express mail or by FedEx and will include insurance on all shipments up to \$50,000. Buyers will be billed additional insurance charges on a shipment or combined shipments valued at above \$50,000. Any claims of loss or damage will only be paid by Stephen Album Rare Coins Inc. only after the insurers' investigation is complete. If the Buyer opts for another form of shipment other than the above, items will be shipped at their risk and they will assume all risk due to theft, damage or loss. A Buyer opt out of the Stephen Album Rare Coins Inc. standard shipping listed above must be in received in writing before shipment will be made.

Stephen Album Rare Coins Inc. cannot accept any responsibility whatsoever for customs duties charged by the country of destination or seizure of items by customs, domestic or foreign.

Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California without a valid Resale Certificate which has been provided to the Auctioneer. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of One Thousand Five Hundred Dollars (\$1,500) are exempt from California sales tax. On any tax not paid by Buyer that should have been paid, even if not collected by Stephen Album Rare Coins Inc. by mistake, error, negligence or gross negligence, Buyer remains liable for and agrees to promptly pay the same on demand together with any interest or penalty that may be assessed.

**7. Financial Responsibility.** In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stephen Album Rare Coins Inc. reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity, to: (a) rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) resell a portion or all of the lots held by Stephen Album Rare Coins Inc., in a commercially reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stephen Album Rare Coins Inc. to satisfy the indebtedness, plus all accrued charges, and Stephen Album Rare Coins Inc. may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stephen Album Rare Coins Inc. If the Auctioneer resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloging and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stephen Album Rare Coins Inc. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stephen Album Rare Coins Inc., including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stephen Album Rare Coins Inc. for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stephen Album Rare Coins Inc., or assignees, the right to offset any sums due, or fund to be due to Stephen Album Rare Coins Inc., and to make such offset from any past, current, or future consignment,

or purchases that are in the possession or control of the Auctioneer or from any sums due to Buyer by Stephen Album Rare Coins Inc., its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stephen Album Rare Coins Inc., or its assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stephen Album Rare Coins Inc., its affiliates or assignees, to secure all indebtedness due to Stephen Album Rare Coins Inc., plus all accrued expenses, carrying charges, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stephen Album Rare Coins Inc. the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stephen Album Rare Coins Inc. If the auction invoice is not paid for in full by the Default Date, a carrying charge of one percent (1%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stephen Album Rare Coins Inc. or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction. Stephen Album Rare Coins Inc. reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. Stephen Album Rare Coins Inc. shall have all the rights of a secured party under the California Uniform Commercial Code and all rights of the consignor to collect amounts due from the Buyer, whether at law or equity.

**8. Disclaimer and Warranties.**

- b) For non-certified coins that have not been examined by the Buyer prior to the Auction: if it is determined in a review by the Auctioneer that there is a material error in the catalog description of a non-certified coin, such lot may be returned, provided written notice is received by the Auctioneer no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by Stephen Album Rare Coins Inc., in their original containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c) If an item or items are returned pursuant to the terms herein, they must be housed in their original container. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges except for items proven not genuine.
- d) Group lots are SOLD AS IS. We will not accept returns on group lots. Please examine group lots carefully before bidding.
- e) Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of the Auctioneer. - f) All oral and written statements made by Stephen Album Rare Coins Inc. and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Stephen Album Rare Coins Inc. has authority to vary or alter these Terms and Conditions of Auction. Any alteration shall be effective only if in writing and signed by an officer of Stephen Album Rare Coins Inc. authorized to do so. Stephen Album Rare Coins Inc. reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of Stephen Album Rare Coins Inc. authorized to do so.
- g) Bidders shall have no recourse against the Consignor for any reason whatsoever.
- h) Bidder acknowledges that the coin market is speculative, unregulated and volatile, and that coin prices may rise or fall over

time. Stephen Album Rare Coins Inc. does not guarantee that any customer will be able to sell for a profit in the future.

- i) Bidder acknowledges and agrees that neither Stephen Album Rare Coins Inc., nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be held liable for such events.

**9. Waiver and Release.** Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges Stephen Album Rare Coins Inc., and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction, and Bidder hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

**10. Disputes.** If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, Stephen Album Rare Coins Inc. reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. Stephen Album Rare Coins Inc. reserves the right to cancel or postpone the Auction or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither Stephen Album Rare Coins Inc. nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction are personal and apply only to the Bidder who initially purchases the lot(s) from Stephen Album Rare Coins Inc.. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions.

**11. General Terms.** These Terms and Conditions of Auction and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction. Any dispute arising out of or related to these Terms of Sale, the Auction or any lot, with the sole exception of actions by Stephen Album Rare Coins Inc. to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the rules of the International Association of Professional Numismatists (I.A.P.N.). Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Sonoma County, California; and any court proceeding shall be in the Sonoma County Superior Court, in the State of California. Bidder agrees that any arbitration or legal action with respect to this Auction is barred unless commenced within one (1) year of the date of this Auction. These Terms of Sale and the information on our website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction,

the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stephen Album Rare Coins Inc. may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

**12. Special Services.** If you wish to limit your total expenditures, please fill in the maximum amount you wish to spend on your bid sheet. This is a personal service and a Stephen Album Rare Coins Inc. representative will personally attend to your bid sheet by bidding from the auction book, buying lots for your account until your authorized expenditure is reached. While we will do our best in your behalf, due to the speed of the auction sale and the sometimes crowded conditions, we cannot be responsible for failure to execute such a bid properly.

**13. Floor Bidding.** We reserve the right to refuse to allow a person to attend the live floor bidding session of the sale, and also reserve the right to eject disruptive or non-compliant bidders from the floor session, at the discretion of the auctioneer. Photography is prohibited for all attendees. Smoking within the building is prohibited for all attendees. Lot pickup for items won by bidders who bid live from the auction floor will be allowed no sooner than 24 hours after the final lot is hammered on the day that the lots were won. This pickup timeline may be altered at the discretion of the auctioneer.

Stephen Album Rare Coins Inc. auctions are not approval sales. Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing terms of sale.
