Piombi di epoca Crociata con scene della vita di San Giorgio. Rauso di f. Le prime Medaglie Napoletane di Ferdinando II di Borbone ed un progetto inedito. Nuovo

**1746** Associazione Culturale Italia Numismatica Quaderno di studi VII Editrice Diana 2012. Brossura ed. pp. 188, ill. in b/n .Il volume è stato interamente dedicato ad Andrea Morello, storico Presidente dell'Associazione, scomparso nel febbraio del 2011. Le prime quattro pagine sono un breve ricordo della Persona, scritte dai figli Antonio e Francesco; segue la bibliografia relativa ai lavori prodotti da Andrea, dal 1994 al 2009, prevalentemente pubblicati per l'Associazione che presiedeva e per la rivista *Monete Antiche*. Il primo studio, è opera di Alberto d'Andrea che analizza la tipologia delle monete emesse dalla zecca di Cuma tra il V e il IV secolo a.C. La sintesi è molto ben strutturata e, nella parte introduttiva, l'Autore ha esposto le motivazioni della divisione in quattro serie (o periodi) della monetazione dell'antica città; segue il catalogo delle varie tipologie e la relativa bibliografia. In questo volume sono stati inseriti alcuni scritti di Andrea Morello che furono editi sulla rivista *Monete Antiche*; tale iniziativa nasce dalla volontà di ricordare ai soci dell'ACIN come egli fosse uno studioso prolifico, ma anche il Suo modo semplice di rivolgersi a chiunque, tramite i suoi studi. Ad esempio, in quattro sintetiche ma efficaci pagine, egli si soffermò su "Due stateri di Taranto firmati da Kal.. raffinato incisore di monete della Magna Grecia". Chi ebbe la fortuna di conoscere Andrea, sapeva bene che tra i suoi pensieri persistenti c'era la volontà di riuscire a classificare e attribuire una particolare tipologia monetale di cui scrisse le sue conclusioni in un articolo dal titolo "La riscoperta di una moneta dell'Italia antica. Il tipo Dioniso/Pantera è stato emesso a Minturnae?". Questo scritto, pubblicato sulla rivista *Monete Antiche*, fu ripreso da Andrea che rimpì di annotazioni, correzioni e aggiunte; Antonio Morello ha voluto così riproporre l'articolo riveduto e corretto, così come ebbe modo di fare Andrea. Antonio Morello, nella presentazione di questa raccolta, ricorda come Andrea era un grande appassionato della monetazione della Repubblica Romana. La stessa passione è stata trasmessa di padre in figlio e quest'ultimo l'ha approfondita con particolare dedizione, cominciando a pubblicare qualche risultato dei suoi studi sulla rivista *Monete Antiche* e in un volume dedicato alla prima monetazione enea, prodotta per fusione, con i tipi divinità/prora; tale monografia fu pubblicata nel 2007 e con Andrea si sono aperte spesso delle discussioni; il tempo, ha fatto il resto, facendo maturare alcuni pensieri che hanno indotto l'Autore a rivedere alcune parti del suo scritto. Poco prima della scomparsa di Andrea, Antonio fece leggere alcune delle sue rettifiche che erano state destinate ad un corposo articolo:

**10**

**1873** Circolo Numismatico “Mario Rasile” Quaderno di studi VII Editrice Diana 2012. Brossura ed. pp. 188, ill. in b/n .Il volume è stato interamente dedicato ad Andrea Morello, storico Presidente dell’Associazione, scomparso nel febbraio del 2011. Le prime quattro pagine sono un breve ricordo della Persona, scritte dai figli Antonio e Francesco; segue la bibliografia relativa ai lavori prodotti da Andrea, dal 1994 al 2009, prevalentemente pubblicati per l’Associazione che presiedeva e per la rivista *Monete Antiche*. Il primo studio, è opera di Alberto d’Andrea che analizza la tipologia delle monete emesse dalla zecca di Cuma tra il V e il IV secolo a.C. La sintesi è molto ben strutturata e, nella parte introduttiva, l’Autore ha esposto le motivazioni della divisione in quattro serie (o periodi) della monetazione dell’ antica città; segue il catalogo delle varie tipologie e la relativa bibliografia. In questo volume sono stati inseriti alcuni scritti di Andrea Morello che furono editi sulla rivista *Monete Antiche*; tale iniziativa nasce dalla volontà di ricordare ai soci dell’ACIN come egli fosse uno studioso prolifico, ma anche il Suo modo semplice di rivolgersi a chiunque, tramite i suoi studi. Ad esempio, in quattro sintetiche ma efficaci pagine, egli si soffermò su “Due stateri di Taranto firmati da Kal.. raffinato incisore di monete della Magna Grecia”. Chi ebbe la fortuna di conoscere Andrea, sapeva bene che tra i suoi pensieri persistenti c’era la volontà di spettivamente Livia, Antonia, Livilla (o Vipsania). Tale proposta non è inedita ma l’Autrice ne approfondisce alcuni aspetti con paragoni iconografici e notizie storiche che ne avvalorerebbero le sue pertinenti conclusioni. Raffaele Iula approfondisce “Il profilo di Giulia Drusilla” con un’attenta “Analisi storiografica e numismatica per una ridefinizione del suo ruolo storico-sociale”. Questo lavoro è integrato con interessanti immagini monetali e una dettagliata bibliografia. Alberto Trivero Rivera, a seguito di molte discussioni aperte nei forum numismatici online, scrive un contributo dedicato a “L’orbis terrarum nella monetazione romana” approfondendo la rappresentazione del globo, in particolare, sulle emissioni imperiali; pregevoli illustrazioni a corredo, fanno di questo lavoro un interessante riferimento, offrendosi con una lettura avvincente. L’articolo di chiusura è di Andrea Morello: “Iconografia paleocristiana sulle monete romane tardo antiche: la Fenice”, già edito sulla rivista *Monete Antiche* e qui riproposto affinché fosse ricordato un bel lavoro, che fu tanto caro all’Autore. **10**

**2016** Quaderno di studi VII Editrice Diana 2012. Brossura ed. pp. 188, ill. in b/n .Il volume è stato interamente dedicato ad Andrea Morello, storico Presidente dell'Associazione, scomparso nel febbraio del 2011. Le prime quattro pagine sono un breve ricordo della Persona, scritte dai figli Antonio e Francesco; segue la bibliografia relativa ai lavori prodotti da Andrea, dal 1994 al 2009, prevalentemente pubblicati per l'Associazione che presiedeva e per la rivista *Monete Antiche*. Il primo studio, è opera di Alberto d'Andrea che analizza la tipologia delle monete emesse dalla zecca di Cuma tra il V e il IV secolo a.C. La sintesi è molto ben strutturata e, nella parte introduttiva, l'Autore ha esposto le motivazioni della divisione in quattro serie (o periodi) della monetazione dell' antica città; segue il catalogo delle varie tipologie e la relativa bibliografia. In questo volume sono stati inseriti alcuni scritti di Andrea Morello che furono editi sulla rivista *Monete Antiche*; tale iniziativa nasce dalla volontà di ricordare ai soci dell'ACIN come egli fosse uno studioso prolifico, ma anche il Suo modo semplice di rivolgersi a chiunque, tramite i suoi studi. Ad esempio, in quattro sintetiche ma efficaci pagine, egli si soffermò su "Due stateri di Taranto firmati da Kal.. raffinato incisore di monete della Magna Grecia". Chi ebbe la fortuna di conoscere Andrea, sapeva bene che tra i suoi pensieri persistenti c'era la volontà di riuscire a classificare e attribuire una particolare tipologia monetale di cui scrisse le sue conclusioni in un articolo dal titolo "La riscoperta di una moneta dell'Italia antica. Il tipo Dioniso/Pantera è stato emesso a Minturnae?". Questo scritto, pubblicato sulla rivista *Monete Antiche*, fu ripreso da Andrea che rimpì di annotazioni, correzioni e aggiunte; Antonio Morello ha voluto così riproporre l'articolo riveduto e corretto, così come ebbe modo di fare Andrea. Antonio Morello, nella presentazione di questa raccolta, ricorda come Andrea era un grande appassionato della monetazione della Repubblica Romana. La stessa passione è stata trasmessa di padre in figlio e quest'ultimo l'ha approfondita con particolare dedizione, cominciando a pubblicare qualche risultato dei suoi studi sulla rivista *Monete Antiche* e in un volume dedicato alla prima monetazione enea, prodotta per fusione, con i tipi divinità/prora; tale monografia fu pubblicata nel 2007 e con Andrea si sono aperte spesso delle discussioni; il tempo, ha fatto il resto, facendo maturare alcuni pensieri che hanno indotto l'Autore a rivedere alcune parti del suo scritto. Poco prima della scomparsa di Andrea, Antonio fece leggere alcune delle sue rettifiche che erano state destinate ad un corposo articolo: Andrea ne fu entusiasta

**2083** Vecchi I., Etruscan Coinage Part 1.1 and 1.2. Collezioni Numismatiche 4. Edizioni ennerre, Milano 2012. In the first of two studies dedicated to Etruscan numismatics, the author presents the struck coinage with the exception of the male head/dog, African/elephant, Peithesa Turms, Aplu and Menvra owl bronze issues of Inland Etruria. The catalogue includes 3890 coins in gold, silver and bronze, subdivided into 224 series as follows: Cosa 6 series; Luca(?) 14; Pisae(?) 5; Populonia 141; Uncertain Central Etruria 17; Vetulonia 18; Volsinii(?) 2; Vulci(?) 7; Unidentified Mints 14. In addition there is a listing of modern forgeries (213) and fantasies (10). The first part of the volume I begins with introductory chapters on the rise and fall of the Etruscans, chronology, the numismatic tradition of Etruscan coinage, dating and metrology. The second part includes an extensive bibliography, a listing of all known finds with 11 maps illustrating distribution patterns, a summery of auctions, appendices, index of types and 153 plates illustrating 2541 coins. Cartonato editoriale. NUOVO

**170**

**2084** Vecchi I. Italian Cast Coinage. London Ancient Coins, 2013. Tela editoriale con sovraccoperta illustrata, 72pp., 87 tavole. NUOVO. A descriptive catalogue of the cast coinage of Rome and Italy. A new edition of Italian Cast Coinage (ICC) compiled by Italo Vecchi which summarises the research into Italy's cast bronze coinage since 1885. It lists 327 types from the aes rude and currency bars of early 1st millennium Italy to the final issues during the Second Punic War, many of which are previously unpublished. The book also includes an account of the cast coinages of Rome, Etruria, Umbria, North-East and Central Italy, Lucania and Apulia. Arranged overall by geographical area, themints within each area are then listed alphabetically; included are details of the historical or geographical background, and an examination of the weight standards and chronology as well as threemaps of the area. At the end of the book there are 87 plates illustrating almost all the types in the catalogue. The book is fully indexed for ease of reference. Hard bound in quarto format. The new standard reference for the cast coinage of Italy.
