1131 ★ RARE! ★ The ancient Roman military gold-plated eagle, known as the Aquila, was one of the most important symbols of the Roman legions. Each legion carried an Aquila mounted on a staff, held by an officer called the Aquilifer. The eagle represented the strength, courage, and unity of the legion, as well as the majesty of Rome itself. Material: The Aquila was often made of precious metals like gold or silver and could be gilded (gold-plated) for added splendor. • Design: It typically depicted an eagle with outspread wings, sometimes clutching a thunderbolt, symbolizing Jupiter, the king of the gods. • Function: The Aquila was more than a mere decoration; it was a sacred object. Losing the Aquila in battle was a catastrophic disgrace for a legion. • Ceremonial Role: It played a central role in military ceremonies, symbolizing the spirit and identity of the legion.
