Beste liefhebber,

U bladert nu in de prachtige catalogus van de komende meiveiling voor munten, penningen, bankbiljetten en aanverwanten. Wederom een grote sale, met bijna 9600 (!!) kavels: veel losse nummers en grote(re) lots, met veel passie beschreven, gecatalogiseerd en gefotografeerd door onze medewerkers, dank daarvoor. Ook dank aan onze gewaardeerde inzenders, die deze veiling mogelijk hebben gemaakt. Zonder hen geen materiaal, nogmaals dank daarvoor!

Ook deze veiling gaan we weer 6 volle dagen voor u aan de slag, waarbij hopelijk alle kavels van eigenaars gaan wisselen. Dit evenement vindt zoals altijd weer plaats in ons eigen kantoor aan de Energieweg 7 te IJsselstein, van maandag 19 t/m zaterdag 24 mei. De kijkdagen beginnen maandag 12 mei en lopen dagelijks door t/m zaterdag 17 mei, inclusief twee avondsessies. Neem deze dagen ruim de tijd en bekijk alles uitgebreid om niets te missen. Tevens kunt u alle LOSSE nummers ook TIJDENS de veiling nog bekijken, tot ca. 100 nummers voor afslag. Voor de indeling van de veiling en de kijkdagen kijkt u in het overzicht op de volgende pagina's.

Alle kavels, zowel LOSSE NUMMERS als LOTS, staan met (impressie)foto's op onze website www.ha-europe.com.

Met trots presenteren we deel 2 van de importante collectie Vinkenborg, met een geweldig aanbod van met name de Nederlandse (provinciale) numismatiek met diverse topstukken, bekroond door een Cent 1818 U in MS65 BN. Daarnaast weer een fantastisch aanbod uit de beroemde Coenen-collectie waaronder een 2.5 Cent 1903, Stuiver 1879, Dubbeltje 1822, Kwartje 1903, een Florijn van 28 Stuivers 1614, een ½ Scheepjesgulden 1802 etc., alle geslagen IN GOUD! Ook mochten wij een schitterende collectie Zuidelijke Nederlanden ontvangen: Doornik, Artois, Luik, Namen en meer, echt bekijken! Daarnaast kunnen de liefhebbers van Guldens hier ook terecht: we presenteren de uitgebreide Pliester-collectie. Ook in deze veiling opgenomen: de beroemde Toele-collectie met vele Nederlandse bankbiljetten, bekend en beroemd tot ver over onze landsgrenzen. Kijkt u zelf maar in deze catalogus of op onze website en laat u verrassen door al dat moois!

Bij het doorbladeren van deze catalogus zal u de grote diversiteit opvallen van de aangeboden stukken en collecties. Mocht u zelf besluiten om (een deel van) uw collectie van de hand te doen of eens een goed gesprek te willen voeren over de aantrekkelijke condities van Heritage Auctions Europe, neem dan gerust contact met ons op. Uiteraard geldt dat ook voor inzendingen voor de veilingen van Heritage Auctions in de USA of Hong Kong, de grootste numismatische veilingen ter wereld.

Tot slot: zoals altijd kunt u weer op alle kavels live meebieden via internet. Na registratie op www.ha-europe.com kunt u inloggen en meebieden. Ook kunt u hier uw schriftelijke biedingen doorgeven. LET OP: bij het sluiten van de biedingen via onze website is het niet altijd zeker dat u op de veilingdag zelf de hoogste bieder bent, we moeten immers nog binnengekomen biedingen verwerken. De kans bestaat dus dat u alsnog overboden wordt zonder dat u daarvan op de hoogte wordt gesteld, houdt u daar rekening mee. Uw aanwezigheid tijdens de veilingdagen wordt uiteraard zeer gewaardeerd. Mocht u echter verhinderd zijn en kunt u niet via ons live computersysteem meebieden, dan voeren wij uw schriftelijke biedingen, zoals u dat van ons gewend bent, discreet en met zorg uit.

Wellicht tot ziens in IJsselstein en alvast heel veel succes op de veiling!

Met numismatische groet,
Jacco Scheper en Huib Pelzer

Dear collector,

Welcome to the May auction of Heritage Auctions Europe! With almost 9,600 lots, this has again become a great auction, which was worked on with great pleasure and expertise. From this place thanks to all contributors who made this possible, in the Netherlands and internationally.

Again we present a 6-day auction, due to the large number of lots, to be "hammered" in our office at the Energieweg 7 in IJsselstein (Netherlands), from Monday, May 19 to Saturday, May 24. The viewing days start on Monday May 12. Of course, all larger lots (impression photos) and single lots are to be found on our website www.ha-europe.com. You can also view all SINGLE lots during the auction, up to approx. 100 numbers before the auction. For details about the auction and the viewing days please have a look at the overview on the following pages.

As always you can participate in bidding for all lots live on the Internet. Your presence during the auction days is of course greatly appreciated. However, if you are unable to attend and cannot bid via our live computer system, we will handle your written bids discreetly and with care, as you have come to expect from us.

Hope to see you in IJsselstein and good luck at the auction!

With kind and numismatic regards,
Jacco Scheper and Huib Pelzer

Terms of Sale (Dutch)

Geldende bij de aankoop in veiling van roerende zaken.

Artikel 1 toepasselijkheid

1.1 Deze algemene voorwaarden zijn van toepassing op alle onderdelen van de relatie tussen de veilinghouder en de koper waaronder die betreffende koop, verkoop, bemiddeling, waardering, beoordeling, taxaties, catalogisering, bewaring en overige diensten. Onder koper wordt mede de aspirant koper verstaan die deelneemt aan de veiling ongeacht of deze in persoon biedt, per telefoon, door achterlating van een schriftelijke of mondelinge biedopdracht, elektronisch of door middel van het internet en ongeacht of een koopovereenkomst tot stand komt.
1.2 Afwijking van deze algemene voorwaarden is alleen mogelijk indien en voor zover uitdrukkelijk schriftelijk door de veilinghouder aanvaard.
1.3 De toepasselijkheid van de algemene voorwaarden wordt aan de veilingbezoekers kenbaar gemaakt door publicatie in de catalogus voorafgaande aan de veiling en/of mededeling voorafgaand aan de veiling en/of vermelding via internet/op de website van de veilinghouder. Een ieder die aan een veiling deelneemt geeft daardoor te kennen de toepasselijkheid van deze voorwaarden volledig te aanvaarden.

Artikel 2 informatie-/onderzoeksplicht

2.1 Omschrijvingen in de catalogus en alle schriftelijke of mondelinge inlichtingen worden door de veilinghouder en zijn personeel naar beste weten verstrekt.
2.2 De koper dient vóór de koop de staat en de beschrijving van een voorwerp in de catalogus of kavellijst ten eigen genoegen nauwkeurig en deskundig te (laten) inspecteren en een eigen oordeel te vormen over de mate waarin het voorwerp overeenkomt met de beschrijving ervan en de koper dient waar redelijkerwijs nodig of gewenst onafhankelijk advies van deskundigen in te roepen, terwijl de koper niet op illustraties in de catalogus dient af te gaan. Indien in de catalogus bepaalde gebreken of onvolkomenheden zijn vermeld, beoogt dat een indicatie te zijn die niet uitputtend is en waaraan de koper geen rechten kan ontlenen.
2.3 De veilinghouder kan niet aansprakelijk gehouden worden voor de onjuistheid van de beschrijving in de catalogus of op andere wijze kenbaar gemaakt, van materialen zoals bijvoorbeeld houtsoorten, stoffen, legeringen, aardewerk, porselein en diamant, een en ander met uitzondering van edele metalen. De veilinghouder aanvaardt alleen aansprakelijkheid voor onjuiste omschrijvingen voor zover voorzien in artikel 6 van deze voorwaarden.

Artikel 3 bieden

3.1 De koper kan in persoon bieden, tevens accepteert de veilinghouder biedingen:
- Schriftelijk
- Telefonisch
- Fax
- E-mail
- Internet, zowel voor de veiling als via de LiveBid. Let op! LiveBid wordt belast met 3% extra commissie, zoals vermeldt in artikel 3.6.

Kavels worden toegewezen aan de hoogst biedende. Bij een gelijk bod van 2 schriftelijke bieders wordt het betreffende kavel toegewezen aan de bieder wiens bieding het eerst ontvangen is.
Internet, zowel voor de veiling als via de LiveBid. Let op! LiveBid wordt belast met 3% extra commissie, aankopen via Drouot, The Saleroom, Lot-tisimo, of Invaluable worden belast met 5% extra commissie, zoals vermeldt in artikel 3.6.
3.2 Schriftelijke biedopdrachten dienen ondubbelzinnig en duidelijk te zijn en naar het oordeel van de veilinghouder tijdig genoeg voor de aanvang van de veilingzitting door de veilinghouder te zijn ontvangen. Indien er meerdere schriftelijke biedopdrachten door de veilinghouder worden ontvangen waarbij de te bieden bedragen gelijk zijn en deze biedingen ter veiling de hoogste biedingen op het voorwerp zijn, wordt het voorwerp verkocht aan de persoon wiens bieding door de veilinghouder het eerst is ontvangen.
3.3 Biedopdrachten hoeven slechts te worden uitgevoerd indien de veilinghouder redelijkerwijs daartoe gelegenheid heeft en de veilinghouder heeft te allen tijde het recht van het voeren van een biedopdracht af te zien.
3.4 Indien koper telefonisch of -indien mogelijk- elektronisch of via internet wil bieden, dient dit uiterlijk 24 uur voor de veiling schriftelijk met de veilinghouder te worden overeengekomen. Afwijking van deze termijn kan alleen met uitdrukkelijke schriftelijke instemming van de veilinghouder.
3.5 De veilinghouder sluit steeds iedere aansprakelijkheid ter zake van het om welke redenen dan ook niet slagen van een telefonische bieding uit, evenals het om welke redenen dan ook niet slagen van een schriftelijke bieding, elektronische bieding of bieding door middel van het internet.
3.6 Alle biedingen zijn onderhevig aan een aankoopcommissie.
- Drieëntwintig procent (23%) commissie en €2 kavelgeld voor ieder gekocht kavel bij alle Postzegel- en Muntveilingen
- Vijfentwintig procent (25%) commissie en €2 kavelgeld voor ieder gekocht kavel bij alle Kunst & Curiosaveilingen- en Militariaveilingen.

Kavels verkregen via LiveBid worden belast met 3% extra commissie.
Kavels verkregen via Drouot, The Saleroom, Lot-tisimo, of Invaluable worden belast met 5% extra commissie.

Artikel 4 totstandkoming koopovereenkomst

4.1 De koop komt tot stand bij definitieve toewijzing. Van definitieve toewijzing is sprake wanneer de veilinghouder het bod van de koper heeft geaccepteerd dan wel het voorwerp aan de koper heeft toegeslagen.
4.2 Alle voorwerpen worden verkocht in de toestand waarin zij zich op het ogenblik van toewijzing bevinden. Wezenlijke wijzigingen in de toestand die blijken na verschijning van de catalogus en/of het tonen op de kijkdagen en/of op het internet waaronder ernstige beschadiging of breuk, of herroeping van de omschrijving van een voorwerp in de catalogus en/of het internet zullen voorafgaand aan de verkoop worden medegedeeld. Na een dergelijke mededeling (bijvoorbeeld in een "sale room notice") kunnen aan de oude omschrijving geen rechten worden ontleend.

Artikel 5 verplichtingen koper

5.1 De koper dient zich op eerste verzoek van de veilinghouder te legitimeren.
5.2 De koper wordt geacht voor zichzelf te hebben gekocht en is aansprakelijk voor betaling zonder zich op een lastgever te kunnen beroepen.
5.3 De rechten en plichten uit hoofde van de koopovereenkomst en deze algemene voorwaarden komen uitsluitend toe aan de koper en kunnen door deze niet aan derden worden overgedragen.

Artikel 6 terugnameverplichting veilinghouder

6.1 Tenzij uitdrukkelijk voor bepaalde voorwerpen in de catalogus of kavellijst uitgesloten, is - onverminderd de artikelen 2 en 4.2 - de veilinghouder bereid een geveild voorwerp tegen gelijktijdige restitutie van de in rekening gebrachte koopprijs en veilingkosten terug te nemen, indien de koper binnen een periode van zes weken na de verkoop ten genoegen van de veilinghouder bewijst dat het geveilde zulke ernstige verborgen gebreken vertoont of de verstrekte omschrijving zo onjuist is, dat indien deze gebreken of de juiste omschrijving aan de koper op het ogenblik van toewijzing bekend waren geweest, hij van de koop zou hebben afgezien of slechts tegen een aanmerkelijk lagere prijs gekocht zou hebben. Dit geldt niet indien de gebreken alleen de conditie van het voorwerp betreffen (zoals bijvoorbeeld slijtage en restauraties).
6.2 De veilinghouder is niet bereid tot terugname indien de omschrijving in de catalogus voorafgaande aan of tijdens de veiling werd herroepen en de juiste omschrijving mondeling of schriftelijk aan het publiek werd medegedeeld.
6.3 De bereidheid tot terugname vervalt ook als de koper het geveilde niet kan teruggeven in dezelfde staat als waarin het zich bij toewijzing bevond, zulks ter beoordeling van de veilinghouder.

Artikel 7 rechten veilinghouder en veilingmeester

7.1 De veilinghouder en de veilingmeester die leiding geeft aan de veiling behouden zich de volgende rechten voor:
a. zonder opgave van redenen personen als bieder of koper te weigeren;
b. te allen tijde wijziging te brengen in de orde van verkoop;
c. voorwerpen te doen uitvallen of toe te voegen;
d. kopen te combineren of te splitsen;
e. kopen niet te gunnen of op te houden;
f. vergissingen bij biedingen en toewijzing te herstellen, of een koop ongedaan te maken zonder dat een bieder van vergissingen gebruik mag maken en zich in dat geval op een tot stand gekomen koopovereenkomst mag beroepen;
g. na toewijzing onmiddellijk gehele of gedeeltelijke betaling te vorderen, terwijl bij weigering of onmacht van betaling de veilinghouder en de veilingmeester het recht hebben de koopovereenkomst ongedaan te maken en daarna het betreffende voorwerp te herveilen en het bod van de nalatige bieder niet weer aan te nemen;
h. indien de koper weigert op eerste verzoek volledige naam en adres aan de veilinghouder bekend te maken en daarop betrekking hebbende legitimatie te tonen, de koopovereenkomst te ontbinden en te herveilen;
i. voorwerpen niet over te schrijven van de rekening van de oorspronkelijke koper op die van een ander;
j. gedurende de veiling geen voorwerpen af te geven;
k. namens kopers of verkopers biedingen uit te brengen;
l. voorwerpen waarover tijdens of kort na de veiling een geschil gerezen is, opnieuw in veiling te brengen, en een eventuele koopovereenkomst te ontbinden.

Artikel 8 betaling/eigendomsoverdracht

8.1 De betaling door de koper van de koopsom in Euro verhoogd met veilingkosten, andere kosten, waaronder indien van toepassing, het verschuldigd volgrecht, en eventuele BTW, één en ander als door de veilinghouder vast te stellen, moet vóór de aflevering van de gekochte voorwerpen plaatsvinden en binnen de door de veilinghouder te stellen termijn, zonder dat korting of verrekening is toegestaan, een en ander tenzij anders is overeengekomen.
8.2 Een beroep op de zogenaamde margeregeling kan uitsluitend worden gedaan indien vooraf aan de veiling aan alle ter zake geldende voorschriften is voldaan onder andere met betrekking tot de inkoopverklaring. Zulks ter uitsluitende beoordeling van de veilinghouder.
8.3 De eigendom van de voorwerpen gaat niet eerder over dan na volledige betaling van de koopsom en in geval van niet-tijdige betaling niet eerder dan na volledige betaling van de koopsom inclusief de in artikel 9 genoemde kosten.

Artikel 9 niet-tijdige betaling

9.1 Bij niet-tijdige betaling zal de veilinghouder aan de koper rente in rekening mogen brengen gelijk aan de wettelijke rente verhoogd met 3% dan wel – naar keuze van de veilinghouder – 1% per maand, te rekenen vanaf de datum waarop de betalingstermijn is verstreken. Tevens komen alle gerechtelijke en buitengerechtelijke kosten voor rekening van de nalatige koper, welke kosten worden begroot op 15% van de koopsom vermeerderd met de veilingkosten met een minimum van € 250 (zegge: tweehonderdvijftig Euro), onverminderd het recht om de werkelijke kosten te verhalen.
9.2 De veilinghouder heeft tevens het recht om, indien de koper de betalingstermijn overschrijdt en daardoor van rechtswege in verzuim is, de koopovereenkomst schriftelijk te ontbinden. Eventuele gedeeltelijke betalingen vervallen in geval van ontbinding bij wijze van vergoeding van schade aan de veilinghouder die tevens het recht heeft de volledige schade, zoals een mindere opbrengst, en kosten op de koper te verhalen en het geveilde onmiddellijk of later te herveilen of uit de hand te verkopen. De nalatige koper kan geen aanspraak maken op een eventuele meeropbrengst.

Artikel 10 ophaaltermijn

10.1 De koper is verplicht de gekochte voorwerpen tot zich te nemen en af te (laten) halen binnen de door de veilinghouder aan te geven termijn. Behoudens het recht van de veilinghouder een kortere of langere termijn aan te geven geldt als uiterlijke ophaaltermijn, een termijn van vijf werkdagen na de laatste veilingdag.
10.2 Bij nalatigheid van de koper het gekochte af te nemen en op te (laten) halen binnen de gestelde termijn is de koper van rechtswege in verzuim en is het gestelde in artikel 9 van overeenkomstige toepassing. Tevens heeft de veilinghouder het recht het gekochte voor rekening en risico van de koper in opslag te geven, waarbij vervoerskosten en het daaraan verbonden risico eveneens ten laste van de koper komen.

Artikel 11 onverkochte voorwerpen

11.1 Indien een voorwerp ter veiling onverkocht blijft, heeft de veilinghouder gedurende een periode van veertien dagen na de veiling het recht doch nimmer de plicht het onverkochte voorwerp alsnog te verkopen tenzij anders overeengekomen met de inbrenger.
11.2 De veilinghouder zal een dergelijke verkoop na veiling ("aftersale") alleen aangaan indien die verkoop kan geschieden voor een prijs die resulteert in een bedrag dat minimaal gelijk is aan de netto verkoopopbrengst waarop de verkoper recht zou hebben gehad indien het voorwerp voor de voor deze veiling geldende limiet zou zijn verkocht, zulks tenzij een andere regeling met verkoper wordt overeengekomen.
11.3 Een aankoop door een koper in de zin van dit artikel geldt als aankoop ter veiling waarop deze algemene voorwaarden onverkort van toepassing zullen zijn.

Artikel 12 aansprakelijkheid veilinghouder

12.1 De veilinghouder is nimmer aansprakelijk voor schade ontstaan aan schilderijlijsten, overige omlijstingen en al wat daarvan deel uitmaakt zoals glasplaten, passe-partouts etc., behoudens het geval dat de schade is veroorzaakt door opzet of bewuste roekeloosheid van de veilinghouder en/of door hem ingeschakelde hulppersonen of personeelsleden.
12.2 In geen geval is de veilinghouder aansprakelijk voor bedrijfs-, gevolg-, vermogens- en/of indirecte schade.
12.3 De veilinghouder is nimmer aansprakelijk voor enig ongeval of enige vorm van schade iemand overkomen in of nabij de gebouwen of terreinen waar gelegenheid is tot inbreng, opslag of bezichtiging, waar de veiling plaats heeft of waar de verkochte goederen worden afgehaald, behoudens het geval dat de schade is veroorzaakt door opzet of bewuste roekeloosheid van de veilinghouder en/of door hem ingeschakelde hulppersonen of personeelsleden en/of behoudens voor zover door een verzekering van de veilinghouder gedekt.
12.4 Het betreden van de gebouwen of terreinen geschiedt op eigen risico.

Artikel 13 foto's en illustraties

13.1 De veilinghouder is gerechtigd alle ter verkoop aangeboden voorwerpen te fotograferen, te illustreren of anderszins in beeld te brengen en af te (doen) beelden op welke wijze dan ook, zowel voor, tijdens als na de veiling, rekeninghoudende met geldende wettelijke bepalingen. De veilinghouder behoudt het auteursrecht op al deze afbeeldingen.

Artikel 14 diversen

14.1 Nietigheid, vernietiging of onverbindendheid van één der bepalingen van deze algemene voorwaarden laat de geldigheid van de overige bepalingen onverlet. In het geval één of meer bepalingen nietig, vernietigd of onverbindend zijn, worden tussen koper en veilinghouder vervangende bepalingen overeengekomen die wel geldig zijn en die het meest de inhoud en strekking van de nietige, vernietigde of onverbindend gebleken bepaling(en) benaderen.
14.2 Op deze algemene voorwaarden is uitsluitend Nederlands recht van toepassing.
14.3 Alle geschillen ter zake van, voortvloeiende uit of verbandhoudende met een tussen de veilinghouder en de koper gesloten koopovereenkomst, de totstandkoming van een koopovereenkomst of deze algemene voorwaarden worden uitsluitend ter beslechting voorgelegd aan de bevoegde rechter van de woonplaats of plaats van vestiging van de veilinghouder, tenzij uit de wet anders voortvloeit behoudens het recht van de veilinghouder om het geschil aanhangig te maken bij de bevoegde rechter van de woonplaats van de koper.

CONDITIONS

Extract of the conditions of sale

The auction sale occurs by upward bidding in euro. To the hammer price a buyer's premium will be added of 23% and 2 euro for every bought lot. Purchases via the livebid system have an alternate buyer's premium of 26% and 2 euro for every bought lot.

Lots are assigned to the highest bidder. In case of two even bids the concerning lot will be assigned to the first bidder. Bidders can submit postal bids at www.ha-europe.com.
Please notice: no bids below the starting price will be accepted!

The auction sale takes place with increasing steps as follows: up to to 100 euro with 5 euro, from 100 to 300 euro with 10 euro, from 300 to 500 euro with 20 euro, and from 500 to 1000 with 50 euro and above 1000 euro with 100 euro. The auctioneer has the right to deviate from these amounts. Bids under the starting price are not accepted.

During and after the auction lots bought can be taken along by the purchaser. This is possible after direct payment (cash or bank) or after permission of the auctioneer to wire the amount within an agreed period. Payment with creditcard is also possible, the auctioneer will charge 5% extra to the invoice due to bankcosts. Cheques are not accepted. Every bidder is considered to buy for him- or herself and can never be entitled 'in-betweens' without responsibility.

Purchases will not be shipped before the invoice is paid in full. Heritage Auctions Europe (HAE) takes no responsibilities for bank or wire transfer surcharges (which some banks charge).

A minimum of 30 euro will be charged for shipping costs. Heritage Auctions Europe is free to raise these costs if the actual shipping costs are higher than invoiced. We attempt to ship as quickly as possible, but operate a queue system with purchases shipped in order of payment. Buyers will receive a tracking number once the package is ready to be shipped out.
We reserve the right to decline to ship lots deemed too fragile, heavy or large for postal services. Every effort is made to pack securely but we are not a professional shipping company. Our services are used at the buyers risk and we cannot be held responsible for damage in transit.

Ownership of the lots remains with the seller until payment has been done in full. Buyer's risk is valid from the moment of knock-down.

All lots are sold as viewed. Authenticity of every single lot (or lots with no more than 2 pieces) is guaranteed.

All disputes during or after the auction are decided by a present supervisor. All parties are subject to his/her pronouncement. Any disputes followed by legal actions will be handled according to the conditions as deposited at the Court of Law in Utrecht under no. 383/1999 (15/11/1999). Only the Dutch text of conditions of sale is in force.

According to Dutch taxlaw your VAT-number will NOT exclude VAT. All prices are reserve prices.

Onthul de ware schoonheid *van uw munten*

Verzamelmunten kunnen beschadigd raken en het uiterlijk kan veranderen als ze niet goed worden bewaard en verpakt. Ook kunnen ze beschadigd raken door het milieu en de omgeving, verkeerd gebruik en veranderingen in de natuur. Vervuiling op oppervlakken zoals PVC en andere resten, vuil, aanslag, vlekken en afzetting kunnen het uiterlijk minder mooi maken en kunnen munten zelfs permanent beschadigen.

NCS heeft een professionele aanpak van numismatische conservatie ontwikkeld en kan deze schadelijke deeltjes verwijderen, waardoor het uiterlijk van een munt aanzienlijk kan worden verbeterd.

NCS, dat door het Smithsonian Instituut wordt gezien als een autoriteit op het gebied van conservering, heeft de expertise en ervaring om het oorspronkelijke uiterlijk van uw munt terug te brengen en de ware schoonheid ervan te onthullen.

Wat kan professionele conservatie door NCS doen voor mijn munten?

Alle soorten munten zijn onderhevig aan oppervlakkige vervuiling en negatieve reacties op de omgeving. In veel gevallen worden munten bewaard of verkocht in zachte plastic mapjes of muntverpakkingen die polyvinylchloride (PVC) bevatten, chemicaliën die langzaam inwerken op de oppervlakte van een munt. PVC en andere resten leiden uiteindelijk tot permanente schade.

Door bepaalde problemen komen munten niet langer in aanmerking voor beoordeling door Numismatic Guaranty Corporation (NGC), een onafhankelijk partner van NCS, als ze niet eerst professioneel worden geconserveerd. Na conservatie door NCS kunnen munten aan NGC worden overgedragen voor certificering. Hierna worden ze, afhankelijk van de staat van het oppervlak, numeriek op kwaliteit ingedeeld of door NGC Details op kwaliteit ingedeeld.

Hieronder volgen enkele voorbeelden van professionele conservatie door NCS.

De Bourgogne Herlaer initieerde het proces voor het ontstaan van een nieuw muntstelsel voor het Koninkrijk der Nederlanden. In oktober 1815 contacteerde hij de toenmalige minister van Financiën C.C. Six van Oterleek met het voorstel om een munthuis in Brussel op te richten, ten behoeve van de muntcirculatie in de Zuidelijke Nederlanden. Daarnaast stelde hij voor om een geheel nieuw muntstelsel in te voeren, om zodoende de circulerende Provinciale, Zuidelijke en Buitenlandse muntstukken te hermunten. De minister liet zich informeren door de hoogleraar J.H. van Swinden; zijn 'Bedenkingen over het Muntwezen' vormde de basis van de nieuwe Muntwet. Ondanks dat Van Swinden er oorspronkelijk vanuit ging dat het nieuwe kopergeld in een aparte wet zou worden geregeld, drong de Koning erop aan dat de nieuwe Muntwet het gehele muntwezen zou beslaan. Van Swinden vermeldde in een extra artikel enkel het aanmunten van de Cent, op aandringen van het Muntcollege werd in april 1816 ook de ½ Cent opgenomen. Een van de vroegst bekende ontwerpen van de Cent is een tekening van de hand van David van der Kellen Sr., vervaardigd in augustus 1816. Deze tekening vertoont bijzonder veel overeenkomsten met de latere, definitieve, muntslag: op de voorzijde is de gekroonde W en op de keerzijde een gekroond wapenschild tussen de waardeaanduiding reeds te herkennen. Van der Kellen leverde de moederstempels van het Kwartje en de Cent in april 1817 op. Het Muntcollege realiseerde zich nu pas dat hetzelfde uiterlijk en dezelfde diameter van beide muntstukken grote problemen zouden kunnen opleveren: kwaadwillende lieden konden de Centen eenvoudigweg verzilveren en doen uitgeven als een Kwartje. Op 9 mei werd Van der Kellen geïnstrueerd om een Romeinse W (in plaats van de cursieve W) op de voorzijde van de Cent aan te brengen ter onderscheid van het Kwartje. Problemen met de uitvoering van het muntmeesterteken zorgden wederom voor vertraging, op 21 januari 1818 werden 12 proefslagen van de Cent aan de minister van Financiën toegezonden. Van deze exemplaren is het bekend dat het om stukken ging die 'op de losse stempel' waren gemunt. De minister keurde de proefslagen goed, echter wel met de opmerking dat de uiteindelijke muntslag 'in de ring' zou moeten plaatsvinden. Pas op de laatste dag van het jaar 1818 werden er uiteindelijk 16 'gerande' exemplaren toegezonden. Knight G. De Bourgogne Herlaer initiated the process for the creation of a new monetary system for the Kingdom of the Netherlands. In October 1815 he contacted the then Minister of Finance C.C. Six van Oterleek with the proposal to establish a mint in Brussels, for the benefit of the distribution of coinage in the Southern Netherlands. He also proposed the introduction of an entirely new coinage system, to re-mint the circulating Provincial, Southern and Foreign coins. The minister had himself informed by the professor J.H. van Swinden; his "Bedenkingen over het Muntwezen" formed the basis of the new Coinage Act. Despite Van Swinden's original assumption that the new copper money would be regulated in a separate law, the King insisted that the new Coinage Act would cover the entire monetary system. Van Swinden mentioned only the minting of the Cent in an additional article; at the insistence of the Mint Board, the ½ Cent was also included in April 1816. One of the earliest known designs of the Cent is a drawing made by David van der Kellen Sr. in August 1816. This drawing shows particularly many similarities with the later, definitive, coinage: on the obverse the crowned W, and on the reverse a crowned coat of arms between the denomination are already easily recognizable. Van der Kellen delivered the master dies of the 25 Cents and the Cent in April 1817. The Mint Board only now realized that the same appearance and diameter of both coins could cause major problems: malicious people could simply silver plate the Cent and spend them as a 25 Cents piece. On May 9, Van der Kellen was instructed to put a Roman W (instead of the italicized W) on the obverse of the Cent to distinguish it from the Quarter. Problems with the design of the mintmark again caused delays; on January 21, 1818, 12 proofs of the Cent were sent to the Minister of Finance. These specimens are known to have been pieces struck without a collar. The minister approved the patterns, however with the comment that the final minting should take place using a collar. Only on the last day of the year 1818 16 of these final patterns were delivered to the Minister of Finance.	*80000*

After the rejection of the first patterns from April 1817 with a large mint- and mintmaster mark and a reeded edge, a second trial strike was made with smaller marks and struck using a steel collar ('in de ring') creating a smooth edge. This second mintage of October 11, 1817 was initially well received and a week later 6 specimens were sent to Minister Six for review. By royal decree on November 26, 1816, it was established that henceforth the mint and mintmaster mark was to be present on all Dutch coinage. Minister Six proposed the use of "a staff of Mercury with the serpents" as the mint mark for the Utrecht Mint. Mintmaster Y.D.C. Suermondt proposed a bust or puppet like the one that appears as the helmet sign above his family crest as the mintmaster mark. In the royal decree this mintmaster mark is described as a bust, in the corridors of the Utrecht mint it was soon referred to as 'Suermondt's baby wrapped in blankets'., ex collection Vinkenborg	*5000*

260	3 Gulden 1818 U (Sch. 240b/RRR) Pattern with smaller bust and narrower neck, finer finish of the hair - struck with polished dies - almost FDC, only a few pieces struck, never sold by us before, ex collection Coenen, EXTREMELY RARE Nadat de Fransen zich in 1813 uit de Noordelijke Departementen terugtrokken, bleek dat zij de muntapparatuur in het Utrechtse Munthuis vrijwel geheel intact hadden achtergelaten. Enkel de muntstempels bleken gebiffeerd te zijn. In 1814 kon daarom direct worden aangevangen met het vervaardigen van nieuwe muntstempels ten behoeve van de Gouden en Zilveren Dukaten volgens de oude voorschriften. Ondanks dat men destijds al het plan had opgevat om een geheel nieuw muntstelsel in te voeren, liet dit enkele jaren op zich wachten. De Fransman Auguste François Michaut werd in 1815 voor een periode van drie jaar door Koning Willem I aangesteld als 'Medailleur des Konings'. De keuze viel op de Fransman omdat men de Nederlandse stempelsnijders niet vakbekwaam genoeg achtte om een gelijkend portret van de vorst te produceren. Michaut ving in januari 1817 aanvankelijk voortvarend aan met het werk voor een drie-guldenstuk, de benodigde muntapparatuur die hij uit Parijs had besteld, arriveerde echter niet op tijd, wat voor een aanzienlijke vertraging zorgde. Op 22 juni presenteerde hij een afslag in tin van het door hem gesneden portret van de Koning aan het Muntcollege. Het Muntcollege verzond het proefontwerp, voorzien van kritische op- en aanmerkingen, aan de Koning: de Koning deelde de kritiek over de gelijkenis van het ontwerp. Michaut beriep zich op het feit dat hij de geportretteerde nimmer in levende lijven had mogen aanschouwen. Nadat Michaut de mogelijkheid werd geboden om tijdens een wandeling in Haarlem de Koning te observeren vervaardigde hij een beter gelijkend, doch volgens velen ouwelijk, portret. Nadat er in de loop van het jaar 1817 diverse proefslagen werden vervaardigd onstond er op 22 oktober een volgend probleem: de uitvoering van het muntmeesterteken van Suermondt. Het helmteken uit het familiewapen (het 'kraamkindje' of 'gebakerd kindje') moest worden aangepast vanwege '...de drie of vier menschen die het gezien hebben over het popje, of kindje in de luuren, gevallen zijn. Schotschrijvers zouden er paskwillen op kunnen maken die men voorkomen kan'. In de winter kreeg Michaut last van zijn gezondheid, waardoor hij pas in de loop van januari 1818 op zijn atelier kon terugkeren. Op 11 februari 1818 overhandigde Michaut twintig proefstukken, voorzien van het nieuwe muntmeesterteken fakkel en een licht aangepast portret, aan Inspecteur Essayeur-Generaal W.A.A. Poelman. Michaut maakte hierbij de opmerking dat er helaas een 'vlekje' aan een van de vleugels van de mercuriusstaf was ontstaan. Op 4 Maart ontving Poelman via Minister Six van Oterleek goedkeuring van deze proefslagen door Koning Willem I, weliswaar met de opmerking dat Zijne Majesteit aangaf 'met het stuk genoegen te nemen, ondanks de nog steeds als onvoldoende bestempelde gelijkenis.' After the French withdrew from the Northern Departments in 1813, it turned out that they had left the mint equipment in the Utrecht Mint almost entirely intact. Only the dies appeared to be demonetized. Therefore, in 1814, the production of new dies of the Gold and Silver Ducats could immediately start according to the old regulations. Even though the plan to introduce an entirely new monetary system had already been conceived at the time, this would eventually take several years. The Frenchman Auguste François Michaut was appointed by King William I in 1815 as "Medalist of the King" for a period of three years. The choice fell on the Frenchman because the Dutch engravers were not considered skilled enough to produce a realistic portrait of the monarch. Michaut started designing a three-gulden piece in January 1817; however, the necessary minting equipment he had ordered from Paris did not arrive in time, causing a considerable delay. On June 22, he presented a pattern in pewter of the portrait of the King to the Mint Board. The Mint Board sent it, accompanied by critical comments, to the King: the King shared the criticism about the likeness of the design. Michaut complained about the fact that he had never seen the portrayed in real life. After Michaut was given the opportunity to observe the King during a walk in Haarlem, he produced a more lifelike, though according to many, old looking portrait. After several patterns were produced during the year 1817, the next problem arose on October 22: the mintmark of mint master Suermondt. The crest from the family coat of arms (officially a Bust of a Moor) had to be modified because '...the three or four people who have seen it have fallen over the little doll, or swaddled baby.' Over the winter, Michaut suffered from ill health, so he could not return to his studio until January 1818. On February 11, 1818, Michaut presented twenty patterns depicting the new mintmaster's mark torch, and a slightly altered portrait, to Inspector Assayer-General W.A.A. Poelman. Michaut commented that, unfortunately, there was a "spot" on one of the wings of the caduceus. On March 4, Poelman, received approval of King William I of these patterns through Minister Six van Oterleek, albeit with the comment that His Majesty indicated 'to be satisfied with the piece, in spite of the likeness, which was still considered inadequate.'	*20000*

557	Gouden Dukaat 1849 Utrecht mint (Sch. 563 / LSch. 445 R1). Standing knight with sword and bundle of arrows between date. Legend: CONCORDIA RES PARVAE CRESCUNT. Inscription within a decorative square with floral outer design: MO . AUR . / REG .BELGII / AD LEGEM / IMPERII. 3,48 g. - RRR Extremely rare – Proof, attractive reflective fields and a light frosted design - Although the Gold Ducat 1849 seems common, almost the entire 'mintage' was struck at the St. Petersburg Mint in Russia. These 'imitations' or ' contemporary forgeries' are easily identifiable due to the different design of the letter M on the reverse. The original and extremely rare Ducats struck at the Utrecht Mint depict an M where the middle of the letter is in line with the two serifs, whereas the Russian types depict an M where it does not. The mintage of the original Utrecht type was only 14.344 pieces, the Russians struck approximately 4.750.000 Ducats of this date. When we compare the mintage of 1849 to the mintages of the well known and rare Gold Ducats minted in the 1870's and 1880's (many of which reach prices realized at auction of several tens of thousands of euro's), we can only conclude that the Ducat 1849 struck in Utrecht is currently extremely undervalued.	*3000*

970	AV Ducat 1759 Zeeland with c/m 'Java' (Ref.: Scho. 438g; Passon 19.4; Fr.7) - 3.46 gram - VF+ -In 1753 it was resolved that 11,450 milled Ducats, struck at the various provincial mints in the Netherlands, which had just arrived at Batavia for local use be counter-stamped with the word 'Djawa' in Arabic characters, to the left of the knight. The rating was Fl.6:12:-., while the Ducats not thus stamped circulated at Fl.6:-:- to prevent export and import by private individuals. From the Placard of 8 January 1760 it appears that Ducats with a false countermark had also been brought in circulation. By order of the home authorities of the Company the stamping of the Ducats was stopped in 1761. Extremely rare with an original countermark, ex collection Vinkenborg	*1000*

Crowned coat of arms flanked by denomination ½ - G. – Gold 6.28 grams – FDC, devoid of any wear and full original luster - Of the highest rarity and of immaculate conservation. Ex. Collection Coenen The Scheepjesguldens and its minors, struck in the mint of Enkhuizen were, initially produced for circulation in the cape colony. British occupation saw them rerouted to the Indies however and they were introduced in Batavia in 1803, at a slightly readjusted course. In Enkhuizen, an extremely limited amount of trial pieces in gold were struck, only of the highest three denominations (¼, ½ and Gulden). The Gulden, an extreme rarity in its own right, was last sold by us in 2023. Appearances of the ½ gulden in gold however are far more rare; neither Berkman, Stephanik, Moquette, Ferrari nor King Farouk managed to acquire an example. It is even absent in the National Numismatic Collection itself! An exceptional prooflike appearance, emphasized by the near perfect state of preservation, highlight not merely the absolute numismatic rarity, but also the conditional rarity of this piece.	*50000*

📷 *1125*	Driekantje van 3 Reaal or coin 18 stuivers (1799-1803) (Scho. 1368 / Passon 59.3 RR / KM 7) - 6.70 gram – XF - RR, very rare - To combat the shortage of small change, during the administration of Governor Lauffer (1799-1803), approximately 7,500 Spanish matten, 8 reales with portrait, were cut into 4 more or less equal parts and stamped with a five-petalled flower with dots between the leaves. These 'guillotines' or Driekantjes were put into circulation for 18 stuivers. Some fifteen years later, around 1815, the Driekantjes had become more valuable than the 18 stuivers for which they had been put into circulation. The English governor John Hodgson therefore ordered that the copies still in circulation (approx. 7,000 pieces) be provided with an extra oval '21' strike, thus upgrading them to 21 stuivers. In the meantime, new, smaller 18 stuivers were produced from 8 reales cut into five. The heavier triangular coins with the right angle had disappeared from circulation in the meantime. Only a few pieces of this first edition are currently known, ex collection Vinkenborg	*2000*

2718	ND (ca. 1620) – Engraved lozenge-shaped wedding medal by an unknown Amsterdam medallist (attributed to monogrammist AB by Frederiks) . Couple in 17th century garb standing within cityscape, clasping hands with flowering heart enchained, personification of death below holding key to the lock. Two putti carrying wreath above. Corners around central medallion decorated with marital symbols - Daer t’ een in t’ander hert / Door liefd gesloten werd / siet men wel vreuchde spruijten / Druck angst noch lijden groot / Niet anders dan de doot / can t’ selfden weer onsluijten. Rev. personification of the harmony of marriage with four children assailed by the death standing left with arrow and Father Time flying above carrying scythe – ‘S Tijts onrust om mij wielt / de doot knaecht en vernielt / In tgraf vast deen na dander / Doch niets is hun betracht / Soo lang ick t’mensch geslacht / Al schakel an malkander. Cf. Frederiks 147/149 (though all without reverse engraving) – Engraved silver, ca. 66.49 gram. Dark patina - XF - Extremely rare and one of only two known of this execution Within the field of engraved wedding medals, the subgroup of lozenge-shaped medals, with less than 15 examples known, represent the height of technical and artistic refinement. While this piece is without a couple and date engraved on the edge, several such examples are known (dated to 1618, 1619, 1623, 1686 and 1690). The named couples without exception come from the upper echelons of 17th century Amsterdam society and indicate these were produced in the workshop of one of the most skilled and desired silversmiths in the city. Two different hands can be distinguished; the first examples likely by the infamous silversmith Michel Le Blon and later examples like this medal by his suspected apprentice monogrammist AB. The fine burin engraving in the central medallion is supplemented by a deeper, almost carving-like technique typical of the edgework of this artist, afterwards blackened by the smith for contrast. Several round wedding medals showing this technique are also known and attributed to him as well. Since these pieces were meticulously engraved by hand, the designs all differ amongst each other to various degrees. While virtually all examples sport solely an inscription in a blank field on the reverse, this medal is only one of only two that also has the elaborate scene engraved on the reverse (cf. Elsen 159, lot 1880 -> Sammlung Franz Trau). A similar piece, without said engraving though clearly from the same hand, which came from the collection of the Countess Mountbatten, was sold by Sotheby’s in 2021 for the equivalent of 36.000 euros. Besides these two pieces, it is unlikely many exist in private hands, with most examples in institutional collections (The Rijksmuseum, NNC and the KHM in Vienna each possessing one or more examples)	*10000*

Portrait Willem I left / Rev. Neptune with trident on a ship's prow, a sluice on the left, a seated Ceres in the foreground right - bronze 46 mm in rectangular morocco leather box with gold printed ornamental border110x59 - UNC - extremely rare set Tot aanleg van het Kanaal van Neuzen (tegenwoordig: Kanaal van Gent naar Terneuzen) werd besloten in 1823. De eerste steen van de sluis bij Terneuzen is gelegd op 7 juni 1826, en de feestelijke opening voor de scheepvaart vond plaats (in afwezigheid van de Koning – het was de verjaardag van de Koningin) op 18 november 1827. Voor deze gelegenheid is een strooipenning geslagen in opdracht van de Gedeputeerde Staten, naar verluidt "een klein aantal gouden, doch een groot aantal zilveren en bronzen" (Middelburgsche Courant 22 nov 1827; de aantallen zijn 7, 65 resp. 300 stuks). Er wordt op dat moment al aangenomen dat later een grotere penning op de aanleg van het kanaal zal worden uitgebracht (Journal de la province de Limburg 22 nov. 1827). Het is de Maatschappij van Landbouw en Kruidkunde te Gent die in februari 1828 besluit om een commissie onder voorzitterschap van de heer Van Hultem in het leven te roepen die aan Willem I "de plegtige dankbetuiging der maatschappij over te brengen wegens het doen graven van het voor den landbouw van Vlaanderen zoo nuttige kanaal van Neuzen naar deze stad, en om tevens aan Hoogstdenzelven, in naam der maatschappij, aan te bieden eenen gouden gedenkpenning, als een gering bewijs van de dankbaarheid der maatschappij." Gelijke penningen in zilver zouden worden aangeboden aan de provinciale gouverneur, de burgemeester van Gent en aan de heren Noël en Van Diggelen, ingenieurs van Waterstaat en uitvoerders van het project (Middelburgsche Courant van 16 feb. 1828). In maart 1828 wordt tevens de bouw van een schutsluis in het kanaal aanbesteed, die waarschijnlijk links op de penning staat afgebeeld. Het is niet bekend wanneer de penning aan de begunstigden is aangeboden. Een goede gelegenheid lijkt het bezoek van Willem I aan Gent in mei 1829 te zijn geweest, toen het koninklijk stoomjacht deze stad over het Kanaal van Neuzen bereikte en waarbij ook de provinciale gouverneur en de Gentse burgemeester aanwezig waren (MvdB)	*300*

Pre-Denarius Coinage (ca. 280-211 BC)

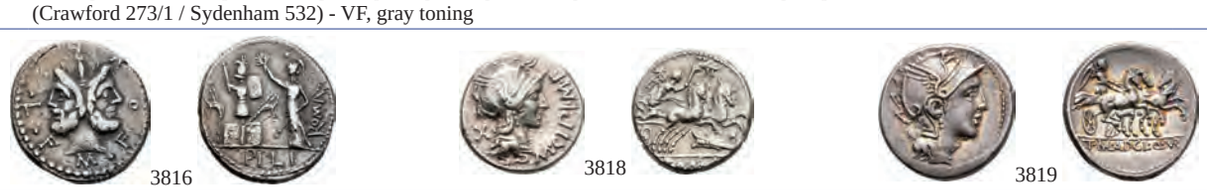

3810	AE Tressis (Aes Grave series, Italy, 4th-3rd century BC, 947.90g) - Silenus / Antelope (TV 299) - good VF. The Aes Grave is a type of early cast bronze currency used in Italy during early Roman times, around the 4th to 3rd centuries BC. 'Aes' refers to bronze, and 'Grave' means heavy, emphasizing its substantial weight compared to later coinage. These coins were not struck but cast in molds, making them unique and thicker than the more familiar struck coins. These heavy bronze coins served both as practical currency and as a statement of wealth and military might. Their weight, sometimes exceeding 300 grams (let alone our piece!), was based on the Roman As system, where the value was determined by weight. They represent an essential transition from barter economies to standardized monetary systems in ancient Italy. The coin presented here is the Thurlow-Vecchi nr. 299 AE Tressis, a notable piece, with Silenus on the obverse and an antelope's head to left. The term Tressis denotes a Roman bronze coin equivalent to three asses (plural of 'as' the basic unit of bronze currency in early Roman coinage). The antelope motif reflects influences from earlier Etruscan or Greek art, with their focus on naturalistic depictions of animals. Thurlow-Vecchi notes a census (population) of only 1, which makes this piece almost unique. The fact that this coin has the highest price quotation in this catalog is therefore entirely justified. We judge this piece a good VF, with clear outlines and a pleasant overall green patina. With a weight of 947.90 grams this piece unfolds a majestic appearance, a feast to the eyes. (Thurlow-Vecchi: Haeberlin, AES Grave, Vol. 2 (repr. Bologna, 1968), plate nr. A1 / Sydenham, Aes Grave, London, Spink, 1926, no record.)	*3500*

Blank - VF - RRRR - of the highest rarity and never offered by us before - ex. collection Garrett, bank Leu sale Oct. 1984, lot 1259 - Tournai was the last city in the Zuidelijke Nederlanden that remained loyal to the Staten-Generaal. After the fall of Maastricht and Brabant, Alexander Farnese besieged the city on 5 October 1581. Due to the absence of the city′s governor, the Prince of Espinoy, the defence was led by his wife Christine de Lalaing and by François de Divion. After a courageous resistance of two months, the city had to surrender on 30 November 1581. Two series of emergency coins were issued during the siege. On 20 October, the seized silver was melted down to produce 50, 25 and 12 1/2 stuivers. Due to a shortage of silver on 23 November copper 40, 20 and 10 stuivers were minted - of the highest rarity and never offered by us before	*2500*

Crowned arms with Golden Fleece - VF - RRRR - only 4 pieces known - Coins of Charles II struck in Tournai are extremely rare. Hoc knew of only two examples, a patagon from 1666 and another from 1667. This rarity can be explained by the historical and economic context. After the death of Philip IIII on 17 September 1665, the crown of Spain went to his young son Charles II, barely 4 years old, who was inaugurated in Tournai on 24 February 1666. However, Louis XIV claimed rights over the Spanish Netherlands in the name of his wife Maria Theresa, daughter of Philip IV′s first marriage, while Charles II was born of a second marriage. The so-called "War of Devolution" broke out in 1667 and quickly turned to the advantage of France, which benefited from an overwhelming military superiority. The French army successively occupied several important places, including Lille, Courtrai, Charleroi and Ath. As for the city of Tournai, it capitulated on June 25, 1667, after a few days of siege. The War of Devolution ended in 1668 with the Peace of Aix-la-Chapelle, which confirmed Louis XIV′s possession of the conquered territories in the Spanish Netherlands. Following the French conquest, the Tournai mint was closed. According to contemporary sources, minting had become derisory, the city being "embarrassed in its finances, anemic in its resources, diminished in its population, undermined in its trade". A text from 1664 indicates that "there is very little work in said coinage because the bars [of metal] do not come there" (RBN 1932, page 30) - of the highest rarity and never offered by us before	*2000*

Muntvondst Wamel

Deel van muntvondst Wamel 1974 - Deze vondst is uitvoerig beschreven door H.E. van Gelder in het JMP 60/61 (1973/1974) op de pagina's 173 t/m 185. Hierbij een deel van de tekst uit deze beschrijving:

De vondst is voor ons land uniek van samenstelling. Hij bestaat voor het overgrote deel uit Franse munten geslagen in de 12e en 13e eeuw. Slechts 4 stukken zijn buiten het toenmalige Frankrijk vervaardigd, waaronder de beide jongste, een penning van graaf Jan II van Holland (1299-1304) en één van graaf Gerhard van Gulik (1297-1328). Omdat deze beide zo goed als nieuw zijn, terwijl de overige munten alle in meerdere of mindere mate door slijtage geleden hebben, mag de verbergingsdatum gesteld worden op kort na 1300. De inhoud van de schat kan als volgt globaal worden samengevat: Deniers parisis van de koningen Lodewijk VII en Philips II (nos 1-2) 6 Deniers tournois van de koningen Philips II, Lodewijk IX, Philips III en IV (nos 3—9) 582 Doublé denier tournois van koning Philips IV (no 10) 1 Deniers tournois van de Abdij Saint Martin de Tours (no 11) 304 Deniers tournois van andere vorsten (nos 12-16,18,19,27,28) 26 Franse deniers van andere typen (nos 17,20-26,29,30) 44 Niet-franse munten (nos 31-34) 4. Totaal 967 munten.

Uit bovenstaande blijkt dat niet alle munten kunnen worden toegeschreven; 220 munten en muntfragmenten uit deze vondst worden hierbij aangeboden. Gerefereerd wordt aan pagina- en volgnummers uit het JMP.

De vondst is in deze catalogus terug te vinden in de sectie losse nummers buitenland (veiling vrijdag 23 mei), Franse munten, onder kavelnummer 8071.

Standing knight brandishing sword with provincial arms of Zeeland - LUCTOR ET EMERGO mm Tower/ Rev. Arms of the cities of Zeeland flanked by denomination 30 - G. - Gold 20.91 grams - NGC MS63 (8361709-005) - Of remarkable conservation with spectacular matted relief over crisp fields. Probably the finest known example and the highest graded out of a mere 3 across both NGC and PCGS. Extremely rare, moreso in this quality! Ex Vinkenborg collection. Besides the regularly minted denominations, the coinage of Zeeland in the beginning of the 1680's, up until the middle of the following decade, shows an unusual amount and variety of experimental strikes. Between the many piedforts of virtually all denominations and gold off-metal strikes, the 30 Gulden pieces however stand out especially. While in terms of design and fabric they closely resemble the 10 Schellingen pieces struck en masse for circulation, the denomination is deliberately changed into quite possibly the highest denomination of any coin in the Provincial monetary system. This indicates that not only were they not just off-metal strikes, but that they actually were rather intended to have a place within circulation. Certainly not for everyday use, but rather as a trade coinage enabling large scale transactions. They were struck briefly between 1683 and 1687 (with most examples carrying the latter date), after which the experiment by mintmaster Hendrik van Dussldorp was forced to stop. The concept behind these high denominations seems to have met resistance from within the estates general and the few examples struck seem to have been trial or presentation pieces. Nowadays, only a handful of 30 Guldens are known to have survived, with the example on offer here without a doubt ranking amongst the finest. It posses remarkably well-preserved and crisp fields, while, due to the nature of the strike, the majority of other examples have seen excessive cleaning in their past. 5262	Florijn of Klapmuts van 28 Stuivers 1614, Leeuwarden OFF-METAL STRIKE IN GOLD (Delm. 1021 R3 / CNM 2.16.76 / VH&S 1486 R3) - Gold 39,02 grams - Obv. 'Frisian nobleman' with sword NISI DOMNVS NOBISCVM 1-614 mm. lion / Rev. Crowned provincial arms FLORENVS ARGENT ORDINVM FRISI mm. lion - XF, well-struck for the type - of the absolute highest rarity, only a few examples known. Ex Coenen Collection, Ex. UBS Gold & Silver sale 48, 25/27 Jan. 2000, lot 863. The Florijn or 28 Stuiver and its minors initially were an exclusively Frisian phenomenon. Its introduction in 1601, based on the new push from the estates general towards a unified coinage that year, was initially met with a moderate success. The design was based upon the earlier Frisian arendrijksdaalders and sports the same characteristic image of what has been termed the 'Frisian nobleman' or alternatively the 'Frisian farmer'. The contemporary mint-instructions however simply speak of an 'old Frisian', an anonymous portrait chosen to symbolize the medieval Frisian liberty within the context of the newly won independence from Spanish rule. Its superficial likeness to the Saxon portrait thalers of the mid-16th century, which enjoyed significant popularity in circulation in both the German lands and onwards, was chosen to emulate said popularity. In 1614, the mint in Leeuwarden, sometimes still using altered dies from 1601 or 1604, began a second emission of Florijnen. This directly led to the wave of numerous Florijnen from the imperial cities in the middle of the 1610's of the well-known imperial eagle. Gold-off metal strikes were produced with both the altered 1601/1614 dies, as well as the new 1614 dies of slightly higher workmanship. The piece on offer here is struck with said new dies and presents a unique offering of an early Frisian off-metal strike seldomly seen on the market.	*50000*

The initials at reverse center stand for Paul Herpich, proprietor of a "Konfektionsgeschäft" (fine clothing store) in Berlin. While the coin is technically designated as “MS,” the offering shows characteristics of a Proof strike. Needle-sharp clarity of detail is expressed throughout, with characteristic stippled texturing noted across Cromwell’s bust and the inner shields of the reverse design, framed by crisp legends. Meanwhile, a compelling amber tone blankets the surfaces, elevating the allure of this treasured relic of English and, more broadly, numismatic history. After the English Civil War terminated in 1649 with the execution of King Charles I, Oliver Cromwell, the leader of the anti-monarchist Parliamentarians, became Lord Protector of the Commonwealth of England. Seven years later, through the combination Thomas Simon’s masterful engraving and the engineering know-how of Pierre Blondeau, the Cromwell portrait series was created. A step towards hypocritically representing Cromwell as King, this milled coinage featured the Lord Protector wearing a laureate wreath and the reverse shield featuring a crown, its overall quality a significant improvement over previous issues. Produced entirely in Blondeau’s own private Drury House (as the Tower Mint moneyers loathed Blondeau and refused to let him work alongside them), the coinage was designed as a statement of Cromwell’s power and to serve as an example of the dramatic improvements in coin production under the Commonwealth.	25000

8071	Part of the Wamel coin find 1974 - This find has been described in detail by H.E. van Gelder in JMP 60/61 (1973/1974) on pages 173 to 185. Here is part of the text from this description: The find is unique in composition for our country. It consists largely of French coins minted in the 12th and 13th centuries. Only 4 pieces were made outside what was then France, including the two youngest, a penny of Count John II of Holland (1299-1304) and one from Count Gerhard van Gulik (1297-1328). Because both of these are as good as new, while the other coins have all suffered wear and tear to a greater or lesser extent, the date of concealment can be put at shortly after 1300. The contents of the treasure can be broadly summarized as follows: Deniers parisis of the kings Louis VII and Philip II (nos 1-2) 6 Deniers tournois of kings Philip II, Louis IX, Philip III and IV (nos 3—9) 582 Doublé denier tournois of King Philip IV (no 10) 1 Deniers tournois of the Abbey of Saint Martin de Tours (no 11) 304 Deniers tournois of other monarchs (nos 12-16,18,19,27,28) 26 French deniers of other types (nos 17,20-26,29,30) 44 Non-French coins (nos 31-34) 4. Total 967 coins. The above shows that not all coins can be attributed; 220 coins and coin fragments from this find are hereby offered. Reference is made to page and sequence numbers from the JMP. Sultanate of Sumanep

8338	AR provincial guilder with Pallas, 1792 West Friesland with a countermark in the shape of a pointed oval with a flower design, attributed to Sumanep. The pointed oval type c/m is mainly applied on Rupee-seize coins, viz.: silver rupees (mainly Java rupees), Dutch 'Generaliteits'-guilders, Quarter Pagoda of British India (1807) and also found on a Spanish 4 Real 1793. According to the information received by Netscher and Van der Chijs, the Sultan Paku Nata Ningrit (1812-1854) appointed in 1818/19 a commission for countermarking silver money to suppress the many counterfeit coins in circulation. Subsequently silver money was countermarked with a flower. As the pointed oval type c/m is mainly observed on coins from the second half of the 18th century and begin 19th century it is asumed that this countermark is applied in 1818/19 and later. 8845	20 Dollars 1879-CC - Liberty head (KM74.3, Fr.177) - Obv: Liberty Head / Rev: Eagle and shield - Gold - XF or better, coinage of Double Eagles at Carson City in 1879 amounted to only 10,708 pieces, slightly lower than the mintage of 1878 at that mint and a sharp decline from the productions of the 1874 to 1877 era. The 1879-CC is famously rare in Mint State, leaving most collectors to seek out high-end AU pieces as the finest readily collectible examples. This impressive specimen displays light wear on the high points of the design elements, and almost all interior detail remains intact. The lightly abraded surfaces show frosty orange-gold luster and reveal modest prooflike reflectivity in the fields	8000
