These coins reflect the enduring impact of the great coinage reform of Abd al-Malik ibn Marwan, who had introduced uniform Islamic epigraphy and Qur’anic inscriptions to replace earlier Sasanian and Byzantine imagery. Struck at key eastern mints such as Wasit and Marw, these anonymous dirhams — bearing no caliphal names — represent a period of mounting political instability. As the Abbasid revolution gathered strength in the east, the Umayyad administration focused on reinforcing legitimacy through religious formulas rather than naming rulers.

These coins reflect the enduring impact of the great coinage reform of Abd al-Malik ibn Marwan, who had introduced uniform Islamic epigraphy and Qur’anic inscriptions to replace earlier Sasanian and Byzantine imagery. Struck at key eastern mints such as Wasit and Marw, these anonymous dirhams — bearing no caliphal names — represent a period of mounting political instability. As the Abbasid revolution gathered strength in the east, the Umayyad administration focused on reinforcing legitimacy through religious formulas rather than naming rulers.
