184 KM-8; Silver (.900), 20.06 g.; Diameter 34 mm; Leningrad Mint; The Mongolia 1 Tugrik 1925 coin is a beautiful and historic piece minted in Leningrad, Russia. This silver coin, with a denomination of 1 Tugrik, features intricate designs that reflect the culture and heritage of Mongolia. The coin is in uncirculated condition, making it a rare and valuable collectible item for numismatists and history enthusiasts alike. In 1925, Mongolia was under the rule of the Bogd Khan, who was the last Mongolian emperor. This period marked a time of transition for Mongolia as it sought to assert its independence from foreign powers and establish itself as a sovereign nation. The minting of this coin reflects the efforts of Mongolia to develop its own currency and promote its national identity. The KM# 8 and N# 6496 designations are references to the Krause-Mishler catalog and Numista catalog numbers, respectively, which are commonly used by collectors to identify and catalog coins. This coin serves as a tangible piece of history that represents Mongolia's journey towards nationhood and independence during the early 20th century. UNC ISBN: 550063

219 KM-Tn2; Ruling authority General Government (1939-1944); A pleasing mint state example, ex Dr. Robert A. Rosenfeld Collection. The Litzmannstadt (Lodz) ghetto was established as an industrial base to manufacture war supplies. The Nazis set up a Jewish council and appointed Mordechai Chaim Rumkowski to keep order. From 1942 to 1943, tokens were struck in the name of the Jewish Elders of Litzmannstadt, the name the Germans chose for the city to honor the German General Karl Litzmann, of WWI fame. These tokens were the only legal currency in the Lodz Ghetto and used to buy what food and medicine they could. Jews traded their personal possessions to acquired these tokens. This item was originally produced by a regime which perpetrated crimes against humanity, war crimes, mass murder, and other acts of violence. Our firm does not endorse such activities and only offers this item as an artifact of history to further research and civil enlightenment. ISBN: 650714
